

Paranormal Dave

Growing up during the 70s in a house that had a spirit I got hooked on the paranormal at a early age.

My family also had a cabin in the Upper Peninsula of Michigan on the Cisco chain of lakes. The cabin stood right on the epicenter of the 1860s logging industry where they loaded the logs onto trains, many accidents and deaths. A 150 yr old cabin in the middle of nowhere surrounded by high spiritual energy only fueled my curiosity.

Then as if it couldn't get any better, the chain had a truly haunted mansion on it, called Summer Wind. Everyone has that one place that you can't forget, drags you in and won't let go, this was mine. I've done over 50 investigations there, before the modern term. That ended when it was struck by lightning and burnt to the ground in the 90s.

Went to St. Viators high school '85 in Arlington Hts and Columbia College Chicago '89. Where I studied many fields of art and science.

Paranormal investigating stepped into high gear when technology caught up with my passion. Was doing private investigations for years before I hooked up with Hands on Paranormal and S.N.A.P.I.T.
