Is it just me or am I the only one that sees this being played out as another attempt by City hall to fool taxpayers. Allow me to explain. Just recently the City of Oshawa has undertaken the invite of citizens to scheduled town hall meetings. On the surface. Wow what a great idea. No other administration has ever reached out to the community in such magnitude. Then for those that know the political game... realize that the City has already under this new administration raised out taxes 3%. Due to poor management they need to raise it again. If they do so without consultation the likelihood of any of the elected official getting re-election is slim.

Then what is the answer. Make it look like the City cares and put out an invite. Their thinking is... if no one shows.... and they are betting on it. Then we gave them the option to voice their opinion. If anyone shows they will be allowed to speak and quickly forgotten. The end goal for the city is to use the town hall meetings as an excuse. A way to rationalize the coming tax increase in 2020. What better way. Fool the taxpayers into thinking they have a voice. Anyone showing up will then have on their conscious that the City listened and that is why taxes will go up. If you don't show up. Then the City will increase your taxes and blame you for not showing up. Either way. We the taxpayers are screwed. Now the real question is why did you vote for a safe candidate and not real change.

As it stands we have no real leadership at City hall... Then again we never had when Henry was in office and look at him now. King of Durham as he won the Regional chair seat. He will be the chair for an eternity.

It seems as we reward incompetency and those that make it look like they care or are doing something. I openly ask. Why did the City manager quit? Why has there been so many vacancies in senior positions at city hall?

Let me go further and ask. Why is it that we have such a huge problem with our downtown? Why has nothing changed? One thing that has changed. Our property taxes have gone up 3%. Our regional taxes another 3%. In total we are paying 6% more in one year.

Has your life changed? Has the quality of your families life changed? Yet, we are asked to pay. Where has the money gone? Where is the leadership promised by those that ran in the election? Questions and more questions.

Go to a town hall meeting and ask them. See what kind of an answer you will get. Well, I can tell you that they will justify anything. They will attempt to confuse you and fill your ear with statistics that are presented in a bias fashion as to inflate the reality that nothing has been done.

We need tangible results. We need jobs. We need stability, prosperity security and peace of mind. We need to see our tax dollars at work.

Can you sit there and read this and honestly say you seen progress?

To defend a country you need an army, but to defend a civilization you need education.

I'm 'pathologically litigious'? Sure, and proudly so!

By Larry Klayman

The Southern Poverty Law Center (SLPC), that ultra-leftist band of miscreants now in deep trouble for unethical misconduct, repeatedly features me and other conservatives on its website as purveyors of hate. In reality, it is SLPC and its colleagues on the left who are spewing hate not just toward President Donald Trump but anyone who supports him. From many Democrat-appointed federal judges, to left-leaning bar disciplinary counsels who are trying unethically to remove pro-Trump conservative lawyers from the practice of law, to the Democratic leadership of the U.S. House of Representatives and U.S. Senate, to radical groups such as antifa, Black Lives Matter, the New Black Panther Party, the Council on American Islamic Relations, the American Civil Liberties Union, elements of the liberal Jewish Anti-Defamation League and other leftist entities funded by World War II Nazi collaborator George Soros, all backed and promoted by the fake news media – it is clear that the vision and institutions conceived of and implemented by our Founding Fathers are under extreme attack.

This leftist onslaught began long ago, even before I conceived of and founded Judicial Watch 25 years ago, but it has grown more pronounced with each passing year since then. Frustrated and disgusted by the lack of courage and desire by my former alma mater, the U.S. Department of Justice, to combat this by enforcing the law equally and not allowing the elite political and legal classes – infesting both the Democratic and Republican establishments – to be exempt from the rule of law, much more the Constitution – and Bill and Hillary Clinton, James Comey and Special Counsel Robert Mueller are just a few examples of these "protected species" – my only recourse on behalf of the American people has been to bring hundreds of hard-hitting lawsuits and commission citizens grand juries to indict and then try and convict these dastardly felons who are eating away at the ethical and moral fabric of the nation, like the pure evil "termites" they are.

Indeed, in this context, I am proud to proclaim that I accept the pejorative characterization given to me by the SLPC as a "pathologically litigious" attorney. What other choice do I have, as someone who ideologically and in practice believes in an honest and just governmental and legal systems, short of taking to the streets armed like our forefathers in colonial times?

In this regard, I get up every morning thinking of what Freedom Watch and I can do to right the course of the nation's downward slide toward leftist socialism, fascism, anti-Semitism, anti-Christianity and atheism and defeat the onslaught of barbarians who are now at the gates, armed and ready like newly minted and rabid radicals Alexandria Ocasio-Cortez, Ilhan Omar and Rashida Tlaib – all figuratively foaming at the mouth and poised to take total control of the levers of power in the deepening swamp known as our nation's capital.

So it has come to pass that I pledge to you, fellow patriots, that if the SLPC and its vile leftist allies think that I am "pathologically litigious," in the words of our great former President Ronald Reagan, "they ain't seen anything yet!"

This was the reason I conceived of and founded Judicial Watch 25 years ago, to investigate and then prosecute – yes PROSECUTE! – government and legal corruption and abuse; not just to obtain documents, go on cable news and boast, and then beg our Deep State corrupt government to take action. The fate of the nation cannot be treated like a Hollywood television reality mini-series! We live in very dangerous times, and dangerous times require hard-hitting action, peacefully and legally, to right the ship of state! In the words of Thomas Paine, which I have quoted in these columns from time to time, and as Paine wrote in the days leading up to the signing of the Declaration of Independence and the ensuing revolution:

"The real man smiles in trouble, gathers strength from distress, and grows brave by reflection. The harder the conflict, the more glorious the triumph. I love the man that can smile in trouble, that can gather strength from distress, and grow brave by reflection."

This recitation of true courage not coincidentally describes my clients Dr. Jerome Corsi, Sheriff Joe Arpaio, Chief Justice Roy Moore, Cliven Bundy and his sons and family, Laura Loomer and a host of others who have laid their lives and reputations on the line – people continually smeared if not threatened with harm by the radical left and their enablers in the fake news media – in their quest to bring light to and prevent the nation from going dark and then to hell in the proverbial hand basket. This is why you fellow patriots cannot and should not, again, in the powerful words of Thomas Paine, fail to act and instead relegate your concern to simply watching the television reality shows that play out each evening, in particular on Fox News, and not be like "The summer soldier and the sunshine patriot (who) will, in this crisis, shrink from the service of their country."

Paine added:

"Tyranny, like hell, is not easily conquered; yet we have this consolation with us, that the harder the conflict, the more glorious the triumph. What we obtain too cheap, we esteem too lightly: it is dear-ness only that gives every thing its value. Heaven knows how to put a proper price upon its goods; and it would be strange indeed if so celestial an article as FREEDOM should not be highly rated."

Heed Paine's words and join in the modern-day equivalent of the colonial army by going to www.freedomwatchusa.org by enlisting in and supporting Freedom Watch's Justice League. You, fellow patriots, no longer have the luxury of acting like "summer soldiers and sunshine patriots" in the face of dangerous and continued leftist Deep State cancerous tyranny embedded in our governmental and legal systems!
