

# ONTARIO LAUNCHES 2021 BUDGET CONSULTATIONS

The Ontario government is asking the people of Ontario for their ideas on how to continue to support families, workers and business during COVID-19, while positioning the province for a strong economic recovery with the launch of the 2021 Budget consultation.

Minister of Finance and President of the Treasury Board, Peter Bethlenfalvy, is encouraging people from all walks of life to share their insights and opinions, online, by email or mail, or through a series of virtual consultations across the province.

"All of us look forward to the day when COVID-19 is behind us and we no longer fear for our health and economic well-being as a result of this virus," said Bethlenfalvy. "We continue to face many challenges, but as I speak to people from every corner of the province, one thing remains clear - the people of Ontario are resilient and their determination gives me hope. We are united by the Ontario spirit and our collective resolve to emerge from COVID-19 is as strong as ever. As we prepare the 2021 Budget, we are counting on the people of Ontario to come forward with their best ideas."

The first virtual consultation was held today with members of the Ontario Chamber of Commerce. The discussion focused on the devastating economic impacts of COVID-

19 and the need for a strong recovery fuelled by economic growth.

"As the indispensable partner of business, we are kicking off the Ontario government's 2021 pre-budget consultations today with critical input from the business community," said Rocco Rossi, the President and CEO of Ontario Chamber of Commerce. "There has never been a more important time for collaboration between industry and government on solutions to rebuild the economy. We hope the 2021 budget will provide the critical and timely supports businesses need while charting a path towards safely reopening and economic recovery."

Throughout the global pandemic, the government's actions have been informed by unprecedented engagement with families, workers, businesses across the province. Ontario's Action Plan: Responding to COVID-19 outlined an initial \$17 billion response to the first wave of the global pandemic. The fall 2020 Budget, Ontario's Action Plan: Protect, Support, Recover, outlined a \$45 billion plan to protect and support people during the COVID-19 pandemic, while laying the groundwork for a strong economic recovery.

The government's 2021 Budget will be informed by the priorities of the people of

Ontario because people's priorities are the government's priorities. The 2021 Budget will be delivered by March 31, 2021.

# Will Deep State now try to take out Trump? And What We Can Do About It?

By Larry Klayman

Even with the acquittal of the President Donald J. Trump, the rabid Democrats are just warming up. House Speaker Nancy Pelosi's shredding of the president's speech after he delivered that State of the Union address last Tuesday, was just for show, to appease her hate-filled leftist Democrat base. But this was just for starters. In the bullpen are not just the likes of House Speaker Nancy Pelosi, Reps. Adam Schiff and Jerrold Nadler, Senators Chuck Schumer and Richard Blumenthal – to name just a few of the leftist hacks infesting our so-called Congress – but more sinister and dangerous is the Deep State embedded and lurking in the executive branch, which

may be ready to strike again!

They know that the socialist if not communist and otherwise freakish, or in the case of Joseph Biden virtually brain-dead, Democratic presidential candidates, are unelectable losers and that The Donald is more than likely to prevail in 2020. Having already illegally and unconstitutionally surveilled the president, his family, and staff, triggering two witch hunts, the Russian collusion caper and now the Ukrainian scam, their evil talons and fangs are now being sharpened to take Trump down once and for all. Since their previous attempted coup d'etats failed miserably, what can we expect next?

So it is that this Deep State, run and managed by those infested-like cockroaches in the Central Intelligence Agency (CIA), National Security Agency (NSA) and Federal Bureau of Investigation (FBI) – a cadre of forces more powerful than the presidency itself thanks in large part to their mass surveillance capabilities and other "off the radar" criminality, along with their allies in the social media companies such as Apple, Google, Facebook, and Twitter (where do you think the CIA, NSA and FBI get their surveillance "expertise") – could do anything in their power to again attempt to remove the president.

God forbid, but it would not be the first time that the CIA in particular has been implicated in an assassination of an American president. Many have concluded, after several parallel investigations, that it was the CIA who was behind the murder of President John F. Kennedy in Dallas on November 22, 1962. Oliver Stone and Kevin Costner's film "JFK" just scratches the surface. Here is a report pulled from a number of reputable sources about the subject:

"The CIA assassination theory is a prominent John F. Kennedy assassination conspiracy theory. According to ABC News, the Central Intelligence Agency (CIA) is represented in nearly every theory that involves American conspirators. The secretive nature of the CIA, and the conjecture surrounding high-profile political assassinations in the United States during the 1960s, has made the CIA a plausible suspect for some who believe in a conspiracy. Conspiracy theorists have ascribed various motives for CIA involvement in the assassination of President Kennedy, including Kennedy's firing of CIA director Allen Dulles, his refusal to provide air support to the Bay of Pigs invasion, his plan to cut the agency's budget by 20 percent, and the belief that the president was weak on Communism." Wikipedia, "CIA Kennedy Assassination Conspiracy Theory."

There were many prominent persons who supported this conclusion that the CIA was behind the Kennedy assassination.

"Jim Garrison alleged that anti-Communist and anti-Castro extremists in the CIA plotted the assassination of Kennedy to maintain tension with the Soviet Union and Cuba, and to prevent a United States withdrawal from Vietnam. James Douglas wrote in "JFK and the Unspeakable" that the CIA, acting upon the orders of conspirators with the 'military industrial complex,' killed Kennedy and in the process set up Lee Harvey Oswald as a patsy. Like Garrison, Douglass stated that Kennedy was killed because he was turning away from the Cold War and pursuing paths of nuclear disarmament, rapprochement with Fidel Castro, and withdrawal from the war in Vietnam. Mark Lane – author of "Rush to Judgment" and "Plausible Denial" and the attorney who defended Liberty Lobby against a defamation suit brought by former CIA Agent E. Howard Hunt – has been described as a leading proponent of the theory that the CIA was responsible for the assassination of Kennedy. Others who believe the CIA was involved include authors Anthony Summers and John M. Newman." Id.

See a lot of frightening parallels? President Trump is widely viewed by the Deep State as soft and too cozy with Vladimir Putin's Russia, the successor to the Soviet Union, run by the former head of the KGB, a rival to the CIA. Trump wants to disengage from the Russian proxy Syria and other Middle Eastern conflicts and wars, as well as negotiate peace and nuclear disarmament on the Korean Peninsula, just for starters. And like Kennedy, Trump has little respect for the CIA and its so-called spy capabilities and honesty, as just one example having openly expressed at a news conference with Putin that he did not believe the agency's "analysis" that Russian had meddled in our 2016 presidential election, but rather believed Putin's denials – humiliating our intel agencies, perhaps not without justification. No wonder after the lies that the American people were fed by the CIA about Saddam Hussein's non-existent weapons of mass destruction, an excuse used by our former half-wit President George W. Bush and his dark Vice President Dick Cheney to embroil us in the never-ending disaster of the Iraq war and its endless destabilizing and bloody aftermath.

Couple this with the continued sinister omni-presence of former Obama CIA Director John Brennan – who many believe is a convert to Islam – and former Obama Director of National Intelligence (DNI) James Clapper, two pathologically sick and vile Trump haters and the pliant minions they have left behind after their "technical" departure in the intelligence sectors, and you have the potential recipe for a JFK repeat.

Of course, I hope and pray that this modern day "conspiracy theory" does not come to pass; again God forbid! But, it is important for the president and every patriotic American to literally keep our eyes open, not be lured into a false sense of security now that The Donald has weathered the latest failed coup attempt through a phony impeachment and conviction.

Throughout American history presidents have been assassinated or mysteriously died while in office. Just consider the fates of Abraham Lincoln and Warren Harding as just two examples: the former shot dead at Ford's Theatre and the latter many believe mysteriously poisoned. And don't forget the assassination attempt by a crazed lunatic on the life of President Ronald Reagan in modern times.

So fellow patriots, now is not the time to be "sunshine patriots and summer soldiers" and bask in the glow of Nancy Pelosi's and her House managers' latest defeat. The left and their embedded allies and agents in the Deep State are like wounded predators! For them, Bolshevik style, the ends justify the means, no matter how illegal, sinister and heinous. We cannot let down our collective guard down and nor should our great president and those around him. The president must have loyal patriots around him, and in particular his Secret Service detail. These are dangerous times and with our vigilance, hard work and with God's Grace, I pray that we will survive. For if this president is taken down, we all will go down with him. Again, and I cannot say it enough, we simply cannot stand by and let this happen! This is a clarion call that few have the courage to make in the world we now live in: one that is bent on destroying all those who act to preserve the freedoms bequeathed to us by our Founding Fathers and who oppose with deeds and not just words the Deep State and its rabid anti-Trump enablers in the pliant leftist media at CNN, MSNBC, NBC, the New York Times, the Washington Post, the Huffington Post, the Daily Beast, Rolling Stone, Salon, Slate and hordes of others.

Go to [www.freedomwatchusa.org](http://www.freedomwatchusa.org) and join and support our Justice League to defend President Trump and yourselves from the evil forces of the left and its Deep State. We have taken on the CIA, NSA, DNI and FBI before and won! Read up about our successful lawsuit Klayman v. Obama, where on two occasions we enjoined the Obama Deep State from illegal and unconstitutional mass surveillance! More needs to be done to protect our president!
