STEALING GOD AND OTHER STORIES

By Bruce McAllister

ENTER A UNIVERSE WHERE NOTHING IS MORE IMPORTANT THAN WHAT IT MEANS TO BE HUMAN

Bruce McAllister is a writer of literary fiction and of fantasy, science fiction and thriller fiction, which he's been publishing professionally since he was sixteen. He was born in 1946 in Baltimore, MD, to a peripatetic Navy family with an Annapolis-graduate father who served with NATO during the Cold War and an underdog-championing anthropologist/archaeologist mother whose specialties were Early Man and Native American studies. As children, he and his brother Jack lived in Florida, Washington D.C., California and Italy. From 1974 to 1997 he taught at the University of Redlands in southern California, where he helped establish and direct writing programs. Since 1998 he has worked as a writing coach and book and screenplay consultant. His short fiction has appeared in literary quarterlies, national magazines, original anthologies, "year's best" anthologies and college readers; won awards from Glimmer Train magazine and the National Endowment for the Arts; and been a finalist for Hugo, Nebula, Shirley Jackson, New Letters, and Narrative magazine awards. His non-fiction articles on sports, popular science and writing have appeared in a variety of magazines and newspapers. A number of his short stories have been optioned for film, and his fans over the years have included Stephen King, Theodore Sturgeon, Robert Bloch (PSYCHO) and Philip K. Dick. He has three wonderful grown children--Annie, Ben and Elizabeth--and lives in Orange, California, with his wife, choreographer Amelie Hunter.

Stealing God And Other Stories: A young woman in an abandoned house brings ruin to every man she meets. A wise-cracking hitman is recruited by an angel of God to kill the oldest vampire on Earth. A son travels into the past to find the mother he lost. In these and other tales Hugo and Nebula nominee Bruce McAllister invites you into a universe where nothing is more important than what it means to be human.

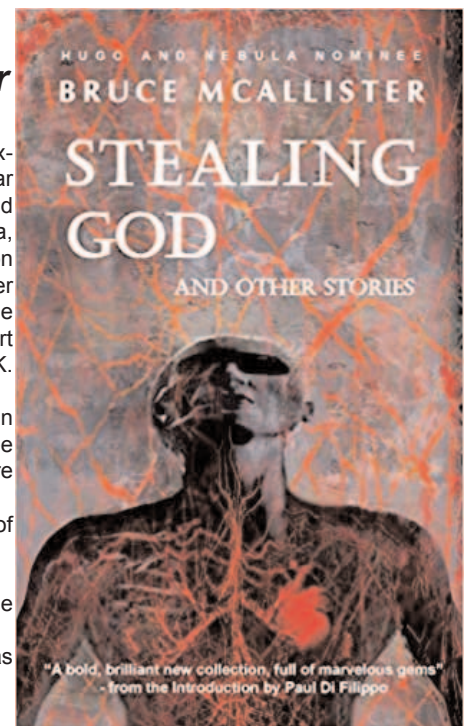

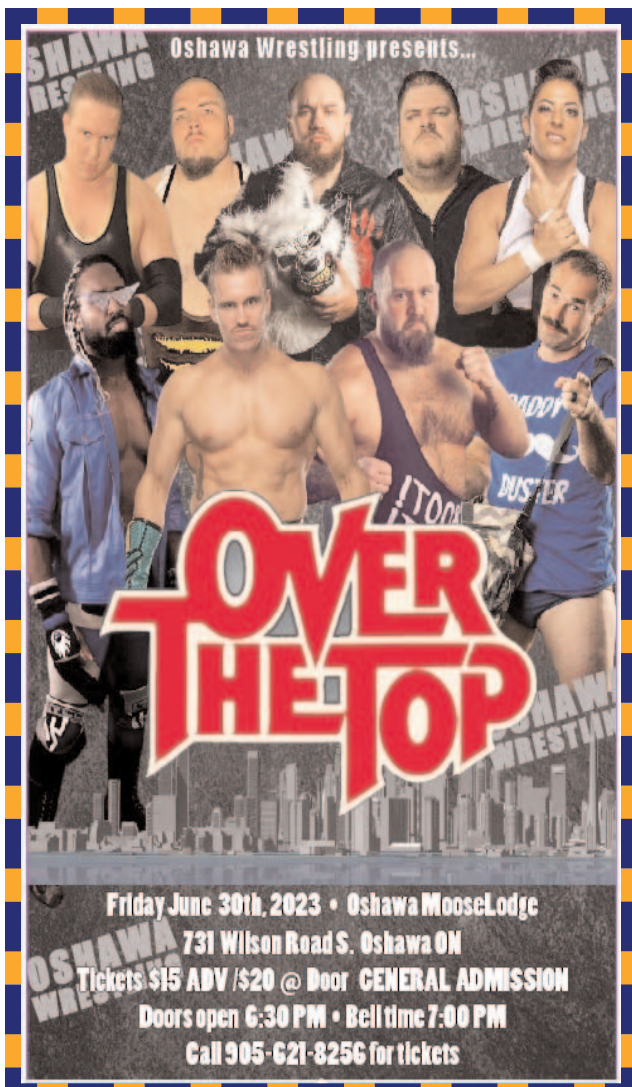

Stealing God And Other Stories is a must read: Bruce McAllister's presents you with science fiction with a human twist. "A sci-fi who done it type of read."
