### Happy Holidays from Mayor Wilma Wotten

The trees are heavy with snow, and long icicles shimmer in the sunlight. Winter has arrived early in Scugog, yet the roads remain wonderfully clear. I am reminded of how fortunate we are to live in such a beautiful community and am deeply grateful for our essential workers, our dedicated staff, and the residents of Scugog.

As 2025 draws to a close, it's a time to reflect on the year behind us and look forward to the opportunities ahead.

This year brought many successes, including:

Completion of the bridge on Line 4

Rehabilitation of the Bell

Tower at Town Hall 1973 Purchase of a new ice resur-

Opening of the four-season

washroom Development of the new splash pad

Arrival of a new pumper truck for Fire Station 62

We also celebrated community achievements:

Congratulating Mr. Ken Koury as Senior of the Year

Welcoming Leanne Ashbridge, Jack Owen, and the Provincial PWSU Champions Port Perry Ladies Softball team into the Sports Hall of Fame

Recognizing and thanking volunteers from over 20 committees and boards

Community engagement continued to grow through budget open houses, public meetings, pop-in sessions, and online survevs. We are proud that our Communications Team earned a Gold Award from the MarCom Awards for the Scugog Communications Strategy Campaign.

In addition, we received over \$4,261,000 in funding from our Provincial and Federal governments to support key projects and continue to pursue grants as they become available.

We passed by-laws allowing accessory dwelling units to help address housing needs and introduced on-farm diversified and agricultural-related uses to preserve our agricultural landscape.

Looking ahead to 2026:

Updates will be shared on streamlining planning and development processes

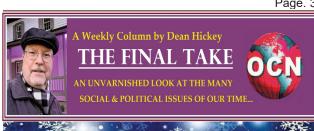

Roads and bridges remain our residents' top priority, and we have committed over \$11 million to address these needs

Work will begin on developing a vision for the fairgrounds, and I encourage all residents' to share their ideas at my.scugog.ca/yourvoiceyourfairarounds

Construction continues on the Scugog-Uxbridge Animal Shelter, with a grand opening planned for fall 2026

Your elected Council remains committed to working collaboratively and respectfully to meet strategic priorities and build a progressive, sustainable, and inclusive community.

I am excited about the opportunities 2026 will bring for us all. Serving as your Mayor continues to be my greatest honour. I wish you a year filled with renewed hope, optimism, good health, and happiness.

## THE MAYOR'S TAL

**'TWAS THE NIGHT BEFORE CHRISTMAS** AND ALL OF COUNCIL WAS THERE..... A short story written by Dean Hickey

One night in December, as the snow did fall I found myself with councillors, one and all. We sat round the chamber on Christmas Eve To discuss a matter you must surely believe Was important enough that we had no choice But to do as a council, what no-one enjoys; To remain together long into the night To consider that which to me seemed right! What follows is as much as I can recall Of the contributions made by us all As we argued, debated and got worked up Like actors on the stage of a drama club. But in the end as you will soon see Council would in fact agree with me. So without further ado, I will recount Those obstacles we came to surmount.

#### MAYOR DAN CARTER

Please find your seats, my councillor friends For there's miles to go before this night ends. I trust you're all well, and I have to say The fact most are here has made my day! I see Councillor Neal has again stayed home To join in our quest, on his telephone, But that is his loss, for he is not near To enjoy the punch I have brought to cheer Those who have acted on a different scale, By venturing to where friendship prevails. And now that you've each taken your seat I'll move a motion that's an absolute treat. It's a sort of pledge on the part of us all, To take stock of ourselves, and to stand tall As we show the world who we really are By casting away old habits to places afar, And in taking on a fresh state of mind The likes of which is often hard to find. Therefore with the power I now possess, I as Mayor do here and now profess To offer up a motion by myself alone Without a seconder, as may be shown By the Strong Mayors legislation I do willingly use without hesitation.

## COUNCILLOR NICHOLSON

Mr. Mayor, I do object to what you say, For I have been here many a day And never have I seen a Mayor so keen To ride all over that which even he Must surely admit is our democracy. I rise on a point of order to firmly object To the methods being used to project Whatever has brought us all down here, On this most precious night of the year. I have served for forty years now, And never have I seen just how This type of unilateral action That seems to now be in fashion, Could possibly help us in our quest To make decisions that are the best.
