

CHRISTIAN BROCK "BRIZ" FRASER STEM ATHLETE SCHOLARSHIP

Christian Brock "Briz" Fraser was born on November 13, 1986, in New Glasgow, NS. Brock was a top student, multi-sport athlete, friend, roommate, uncle, and father. On July 26, 2023, Brock spent his last moments enjoying the family summer home before he was unexpectedly immersed in the ocean and didn't make it back.

In his earlier years, Brock played AAA hockey where he was a small but mighty force on the ice. He played bigger than his size and was known for his heart, grittiness, and leadership. Brock was awarded many accolades during his hockey career and continued to play throughout high school where he was captain of the North Nova Education Centre Gryphons.

Though Brock was involved in many sports, soccer was his true passion. Brock was a dedicated athlete and great teammate who loved the game of soccer with devotion. Brock was awarded the Buddy Daye Scholarship for leadership, academic excellence, and community involvement, which brought him to Mount Allison University where he began his university soccer career and played for two seasons. Brock enjoyed many other activities and was always the life of the party. His ability to make people smile and laugh was contagious. Brock was a great friend to many people, including his Bennett housemates.

Brock later transferred to St. Francis Xavier University, where he donned an X-men jersey for the 2009 season. He later switched to X-men rugby where he competed ferociously for his final years of his undergraduate degree.

In 2010, Brock graduated from StFX with a Bachelor of Science and joint advanced major in 2010 and continued his academic and athletic career at Memorial University where he began his master's in advanced physics and math in 2010-2011 and played soccer for the Seahawks.

In his adult years, Brock once again returned to St. Francis Xavier University where he furthered his studies, graduating with a Bachelor of Education in 2013. Brock had a life-long love for learning and he was most recently enrolled as a student in the Master of Education program at StFX.

Brock thrived on being an educator and touched the lives of many students across the country. Beginning his teaching career in Fort McMurray, AB, he later moved to Calgary where he taught science, math, and physics and then at North Nova Education Centre. Brock was adored by his students and aimed to empower them in the classroom and through coaching soccer and track & field. Brock was also a member of the Black Educators Association and the school representative for the NSTU. In the years leading up to his death, Brock enjoyed visiting Halifax on the weekends to catch up with old friends and watch the Halifax Wanderers compete in the Canadian Premier League.

In remembrance of Christian Brock "Briz" Fraser, and to honour his legacy, the Christian Brock "Briz" Fraser STEM Athlete Scholarship will be awarded to a Mount Allison male student-athlete from Nova Scotia who has demonstrated excellence in the areas of (STEM) Science, Technology, Engineering, & Mathematics and sport. This award will aim to encourage multi-sport athletes who have shown dedication and excellence in STEM subjects to pursue a post-secondary education at Mount Allison University.

This fund will provide deserving student-athletes with the opportunity to pursue their academic and athletic dreams, just as Brock did during his time as a student-athlete at Mount Allison.

Your generous support will make a significant difference in the lives of future generations of Mounties Varsity Men's Soccer players.
