

dayGraphica 8450 forms sticky back

A superior new adhesive system makes the 8450 the perfect blanket for your adhesive blanket forms presses.

Day has developed a uniquely balanced adhesive system that keeps the 8450 firmly in place, yet allows for a clean removal with no residue. Combine this with a precision buffed face for true gauge control and you have a blanket that increases your productivity while delivering unmatched print quality.

Features

Benefits

New adhesive technology	• Blanket stays put, but removes cleanly with no residue on the cylinder.
Buffed face	• Gives precise gauge thickness.
Blended rubber face compound	• Allows for superb print quality and easy cleaning on wash-up.
Fabric Carcass	• Adds strength and stability. Blanket can be removed in one piece.
Available in .0355" to .041" gauges	• Adapts to your press thickness needs.
