PRACTICE WITH CIPHER

The Power of Imagination

Hey! Want to try something with me?

Look at something ordinary—a box, a bunch of kitchen utensils, a pile of toilet paper rolls, or anything!

Now ask yourself... **"What else could this be?"**

A box could be **turned** into a pet robot.

A bunch of kitchen utensils could be **a catapult.**

A bunch of toilet paper rolls could turn into a marvelous **marble mover!**

There's no right answer. That's the fun part!

Use your imagination. See something that isn't there... **yet.**

YOUR TURN! What do YOU see?

My box could be a... _____

Draw your idea:

Idea Starters

(Pick one or create your own!)

- ☐ A spaceship
- ☐ A castle
- ☐ A race car
- ☐ A secret hideout
- ☐ A robot
- ☐ Something else: _____

BRAIN BOOST for Kids!

This activity helps you practice imagination, creativity, flexible thinking, and problem-solving!

PRACTICE WITH CIPHER

Build Your Imagination!

1. WHAT ELSE COULD IT BE?

Look at eack ordinary object.
Write other ideas for what it could be.

2. IMAGINE & CREATE!

Pick one ordinary object from around your home (like a box, spoon, or socks).

- ☐ What else could it be?
- ☐ Draw your idea below.
- ☐ Give it a fun name!

My Creation Is Called: _____

3. DISCUSS TOGETHER

Talk about it as a family:

1. What was your favorite idea? Why?
2. How did you come up with that idea?
3. What other ordinary objects could you imagine in a different way?

MY IMAGINATION PROMISS.

I will look at ordinary things in a new way and ask, "What else could it be?"
