QUALIFIED CONTRACTORS

CQCJob® Craft Master Program

Step-by-Step Guide

Signing Up for the CQCJob Craft Master Program

The CQCJob **Craft Master Program** is a turnkey solution designed for construction professionals who are part of fully prepared, skilled crews seeking efficient, streamlined deployment throughout the Caribbean.

Step 1: Initial Crew Contact and Program Inquiry

The first action is for a representative of the skilled construction crew to initiate contact with CQCJob.

1. **Contact CQCJob:** Reach out to a CQCJob agent or the designated program contact.
2. **Goal:** Express the crew's collective interest in joining the Craft Master Program for efficient regional deployment.

Step 2: Crew Assessment and Qualification

The CQCJob team will evaluate the entire crew's expertise and professional profile.

1. **Skills Inventory:** Provide a comprehensive inventory of the crew's collective skills, which should cover essential construction areas such as:
 - ◆ **Carpentry and Finishes**
 - ◆ **Mechanical, Electrical, and Plumbing (MEP)**
 - ◆ **Exterior and Specialty Finishes**

◆ General Labor

2. **Vetting Process:** The crew members will undergo a **highly vetted** assessment to ensure they meet the quality and professionalism standards required for the Craft Master Program deployments.

Step 3: Documentation and ATS Optimization

CQCJob utilizes its career empowerment services to prepare the crew for deployment.

1. **Submit Professional Records:** All crew members or an person on their behalf must submit their individual professional documentation and resumes.
2. **ATS Optimization:** CQCJob enhances these documents using **Applicant Tracking System (ATS) optimization** to ensure maximum visibility and effectiveness for employers seeking strategic growth across their selected industry.

Step 4: Project Matching and Mobilization Planning

Once qualified, the crew is strategically matched with regional projects of various sizes, ranging from significant developments to smaller contracts.

1. **Deployment Matching:** CQCJob® selects projects that require the crew's specific expertise, ensuring an **effective skill match** for every job.
2. **Work Permit and Logistical Support:** CQCJob® manages the **streamlined, end-to-end mobilization process**, providing essential support that includes:
 - ◆ **Logistical Planning** (Travel, Transportation)
 - ◆ **Work Permit Support** (Ensuring legal placement across the region)

Step 5: Seamless On-Site Deployment

The final step is the efficient deployment of the fully prepared team to the worksite.

1. **Receive Final Briefing:** The crew receives a final briefing on all project specifics, logistics, and site requirements.
2. **Seamless Placement:** The fully mobilized crew is **seamlessly placed on-site** and begins work, leveraging the efficient deployment system designed to meet the growing demand for construction expertise.

Next Step: Are you ready to speak with an agent about getting your construction crew enrolled in the Craft Master Program? Reach out to a CQCJob® agent immediately. This can typically be done via a **Craft Master** form on our website, WhatsApp, or an email, depending on your preferred method.

We encourage you to prepare all required documentation in advance of your meeting with a CQCJob representative. This critical step promotes a highly efficient transaction, quickly moving you forward toward securing your new employment opportunity.
