MyAphasia Hangman

Rebuild Language Through Play

MyAphasia Hangman is a thoughtfully designed word-guessing game created to support people with aphasia, stroke survivors, and anyone working to strengthen language, spelling, and cognitive skills.

Designed for Aphasia & Cognitive Recovery

- Encourages letter recognition and spelling
- Supports word and sentence decoding
- Reinforces language through repetition and context
- Helps improve attention, memory, and problem-solving
- Promotes confidence through achievable success

Leader-Guided & Flexible Play

A designated Leader can enter custom words or phrases, add hints, select categories, and adjust difficulty levels.

Accessible by Design

Large, high-contrast letters • Simple, uncluttered interface • Optimized for iPhone and iPad
