

Dear Guests,

Feel free to use the cot if you see it appropriate for your small child. For insurance purposes, our housekeeping team is not permitted to put the cot up for you.

It lives under the bed in the Master Bedroom.

We would be grateful if you can collapse the cot before departure.

## Collapsing the cot...

Remove both mattresses, thick and thin. PULL THE HANDLE IN THE CENTRE of the bed DIRECTLY UPWARDS to release the lock system.

Both at the same time, unlock the LARGE sides by LIFTING EACH ARM AND PRESSING the clips marked with a WHITE CIRCLE on each side.

Both at the same time, unlock the SMALL sides by LIFTING EACH ARM AND PRESSING the clips marked with a WHITE CIRCLE on each side.

To finish, the cot is wrapped in the thin mattress and it's protective case. The housekeeping team will replace it under the bed as part of their scheduled departure checks.
