

Have you ever wished you could just carry around your precious metals in your pocket so you could have access to them all the time?

Yeah, us too. Our solution?

The soundmoney® wallet: your very own wallet and digital currency converter for both your cash and your precious metals. That's right, folks! Now, you can instantly convert cash into gold, cash into silver, and both gold and silver into cash at the current highest market rate and with no added fees. You can also use this tool to instantly send soundmoney® to your friends who also have soundmoney® wallets.

Not making sense or seeming too good to be true? We have a team of experts that will walk you through the process of setting up and understanding your soundmoney® wallet so

that you can use it to your best benefit. When you purchase gold and silver and store it in the physical soundmoney® vault, you can sleep easy knowing it's being stored in a state-of-the-art, military-grade vault, safe and sound. If you prefer to store your precious metals yourself or if you ever want any of your precious metals out of the vault for any reason, our team will have it sent to your doorstep immediately.

Click Verify Me—Click Start—Choose your country—Choose your verification form (driver's license, national ID or passport) Choose your state—Take a photo and follow remaining steps

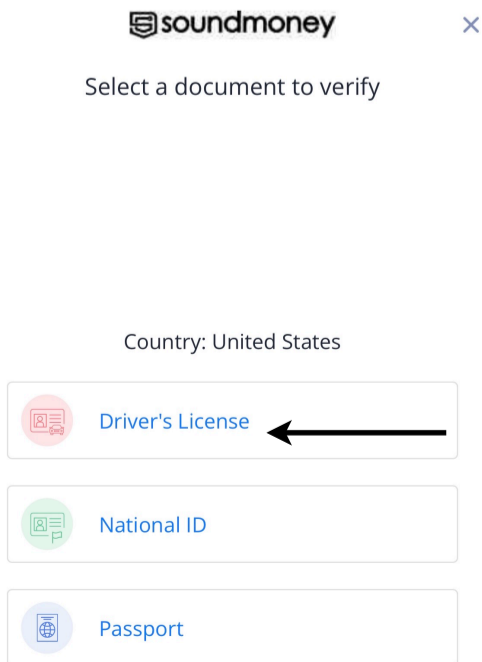

The home screen of the SoundMoney app features a navigation menu (hamburger icon), the SoundMoney logo, and a shopping cart icon. A prominent yellow warning box contains the following text: "The security of your soundmoney™ wallet is very important to us. The identity verification requirements not only help keep your assets safe, but it also helps us keep this service in compliance with the general Know Your Customer rules. Please make sure you provide the correct information. Failure to complete this step by Saturday, May 1st will prevent you from transferring money using the soundmoney™ wallet service. Thank you!". Below the warning is a blue "Verify me" button with a small icon of a horse and rider. Underneath is a "Getting Started" section with introductory text and three buttons: "TRANSFER", "LEARN", and "LINK BANK". At the bottom, there is a "3RD PARTY APPLICATION" button and a chat icon.

This screen is titled "Select a document to verify" and includes a search bar. Under the heading "Suggested countries", a list of countries is shown with their respective flags: Mexico, United States, Argentina, Brazil, Chile, Colombia, and Peru. An arrow points from the "Verify me" button in the previous screen to this screen. Below the country list, a preview of a document is shown, labeled "Driver's License AL, United States" and "Front Side". At the bottom, there is a blue "Take a photo" button with a camera icon. An arrow points from the "Take a photo" button in the previous screen to this one.

This screen is titled "Select the state of your document" and is for a "Driver's License". It features a search bar and a list of states: Alabama, Alaska, Arizona, Arkansas, and California. An arrow points from the "Take a photo" button in the previous screen to this screen. Below the state list, a preview of the document is shown, labeled "Driver's License AL, United States" and "Front Side". At the bottom, there is a blue "Take a photo" button with a camera icon. An arrow points from the "Take a photo" button in the previous screen to this one.

This screen is titled "Select a document to verify" and shows the "Country: United States" selected. Below this, there are three options for document types: "Driver's License", "National ID", and "Passport". An arrow points from the "Verify me" button in the home screen to this screen.
