

Connect Account Setup Guide

A cleaned-up quick reference for logging in and creating your account at web.connectunited.com.

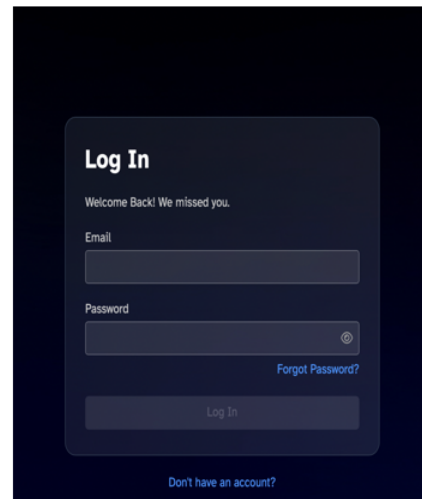

Step 1: Log in to your account

Go to web.connectunited.com and enter your email address and password on the login screen.

If you do not have an account yet, select the option for creating a new account from the login page.

Before you continue

- Use the same email address you plan to use for all Rally or Connect-related setup steps.
- Double-check spelling before submitting your information.
- Save your password somewhere secure.

Tip: If you forgot your password, use the **Forgot Password?** link shown on the login screen before trying to create a second account.

Create Your Account

Complete each field carefully, then review the checkboxes before selecting **Save & Continue**.

Checklist

1	Make sure the referral link is correct, then enter your Email.
2	Enter Confirm Email .
3	Type your First Name and Last Name .
4	Select your Country .
5	Enter your Phone Number .
6	Create a secure Password .
7	Enter Confirm Password .
8	Type your Postal Code .
9	Check all 3 required boxes .
10	Select Save and Continue .

The screenshot shows a 'Create Account' form for 'rally'. The form includes fields for Email, Confirm Email, First Name, Last Name, Country, Mobile Phone Number, Create A Password, Confirm Password, and Postal Code. There are three checkboxes: 'I am at least 18 years old', 'Opt-in to communications & announcements', and 'I understand that BlockFabric is not affiliated with Connect. I have read and agree to the BlockFabric Terms of Service and Privacy Policy'. A 'Save & Continue' button is at the bottom. On the right, a 'Referred By:' section shows 'Double Check Name' and a 'Getting Started' section with '1. Create Account' selected and '2. Verify Email' as an option.

Required boxes shown on the form include age confirmation, opt-in to communications and announcements, and acceptance of the BlockFabric terms/policy.

Final review: Make sure your name, email, phone number, and postal code are correct before submitting. That helps prevent delays in the next setup steps.
