

Naturpaz Bylaws and Organic Bases

APROVED ON MARCH 4TH 2023 IN HAVANA, AMSTERDAM, AND MIAMI.

Mission:

To establish an academic debate using a historical-dialectical standard on the origin of the pro-environmental and anti-war struggles in the Cuban archipelago, guaranteeing its continuity and legality. To embrace and collaborate with all academic entities at the national, and international level that express the common vision of co-existing in an ecologically sustainable world free of nuclear weapons and regional armed conflicts.

To inform and promote the urgent eradication of all nuclear weapons on the planet and the prohibition of all nuclear weapons tests, while insisting on the benefits of peaceful coexistence in a world without armies.

To translate the scientific-technical progress, commercial and market-stocks opportunities in the achievement of renewal energies to the common language of local communities. To facilitate access to information and resources needed to transform the Cuban archipelago from a state in energy ruin based on hydrocarbons; towards a prosperous economy supported entirely by a mix of renewable and non-polluting energy.

To endorse investments in the renovation of the hydraulic watershed, recycling, urban hygiene and conservation of flora and fauna.

To work in our communities to redefine urban, historical, and sociological ecologies based on the collaboration of all Cubans. Together in a cosmological biodiversity to look for unity using a tolerant and peaceful debate. The discussions will recognize multilateral and asymmetrical realities in a holistic approach. Promotion of consensus using essential social pacts to achieve a prosperous and ecologically sustainable Cuba and planet.

Article 1: Foundation.

Naturpaz is considered one, founded on February 9, 1986, in the Parque Lenin, Havana City; regardless of lapses or interruptions caused by situations beyond the control of its members and foundational aspirations.

A) Legality: Article 3, regarding the exercise of people direct power in relation to articles 16 (f), 32 (d) (f), 56, 75 and 80, all in the current Cuban Constitution of

2019. Similar international principles or legislations when applied to other nations.

B) Naturpaz original petition for legalization as the first eco-pacifist movement in Cuba was filed before the Ministry of Justice and its civil servant Marta Mena, **in March 1986**. That original petition was never properly answered by law. Therefore, the legal arguments used to prevent the legal viability of an organization named “Young Cuban Environmentalists” citing the creation in 2007 of the “Red Juvenil Ambiental-Youth Brigades” is legally null and an extemporaneous argument.

C) Regardless of the fact that Naturpaz is going to offer a niche and collaboration to all related national and international movements. It considers that all multilateral ecological and pacifist initiatives are valid. Any decision adverse to the legitimacy of Naturpaz would be appeal in the legal system and before national and international public opinion.

Article 2: Structure.

A) Naturpaz leadership is collegiate and initiated inside Cuba, and in the countries where its members are organized or participate. In its initiation in Havana City kept closed ties with the beginning of collective practicing of Yoga in Cuba, and with a society that studied unidentified flying objects (UFOs) and accepted the existence of intelligent life, and other civilizations in our Universe. In tribute to those origins, all District headquarters or similar in cases of other countries outside of Cuba will try as much as possible to collaborate with Yoga societies, and Astronomy Centers or similar institutions to provide both services as a courtesy to its members, and in homage to the origins of Naturpaz.

B) 1. Council of Intergalactics: Composed of seven or more promoters of Naturpaz who were (are) founders, leaders, sponsors, members or signatories of the board that request legal statutes in any country. Moreover, all invitees by their merits in the field of academia, art, literature, ecology, peace, or any other similar ground. The Intergalactic Council will use the two or more environmental advisors, who would have a say in their decision making.

2. **Board of Promoters**: Eco-pacifist promoter, two environmental advisors, spokesperson and 3 general promoters.
 3. **Community Centers**: A President, and a minimum of 50 identified members per identification document. The Community Centers would run elections every 3 years and would have three months to transfer all their functions to the newly elected leaders. The maximum number of confirmations would be 3 (three) terms. Community Center members would be eligible for promotion to the Board of Promoters.
 4. **General Assembly**: The meeting of The Intergalactic Council and Board of Promoters is The General Assembly. Members would be elected or ratified by direct and secret vote. The positions and functions of the members of the Intergalactic Council would run for elections every 6 years. The Council would have a period of 6 months to orderly transfer all powers to the new members. The maximum number of confirmations will be two terms.
- C) The Intergalactic Council resided in Cuba would have sovereign control and exercise supervision of the rest of the nations with all having equal participation of voice and vote.

Article 3: Finances.

Naturpaz is an independent entity within civil society and would not respond to any official government policies, regardless of being abiding by the laws of all the countries where would reside. **The exercise of the civil independence of Naturpaz is essential and irrevocable to be able to exercise its social function.**

Article 4.

Naturpaz is a non-profit entity, and it would be supported by individual donations, institutional contributions, and sales of intellectual property from artists, scientists, writers, and others within its membership whenever they are deemed necessary. It will also accept donations from national, and international eco-pacifist entities, from Universities, Research Centers, **or any other entity**

that promotes eco-pacifist ideas. Conditioning of those donations to modify the objectives established here is prohibited.

Article 5.

In its first stage of rebirth, and in a period of up to 6 months, Naturpaz will use personal resources and donations from its Intergalactic Council to promote projects.

Once legal viability is established, and resources begin to flow from similar or public entities. One or more independent treasurers and accountants would be hired or used on a pro-bono basis to provide an accurate and public accounting of income and distributions. An annual audit report would be sent to all hierarchical levels, including the governments of the countries where Naturpaz would work promoting environment and peace issues.

Article 6.

In the first 6 years, starting in March 2023, Naturpaz is planning to dedicate no less than 75% of its resources to improve renewable energy transformation, the hydraulic basin improvement, waste, and toxic recycling, drinking water supply and conservation efforts in flora and fauna in Cuba.

Article 7.

Naturpaz is going to incorporate conferences, academic studies, market statistics opportunities, and all public or private studies and information related to renewal and ecological transformation to furnish community centers, and to educate the general population. It would insist in a wide array of methods to achieve such transformation in the current energy system based on hydrocarbons into a totally sustainable system at national level. The goal would be to use renewable sources that cover all transportation, industries, homes, public and private services by the year 2035. Naturpaz would use convergences with national and international universities to promote the application of advanced technologies, and a novel combination of green hydrogen, wind power, solar and other renewable sources. The same procedure would be used

in the improvement of the hydraulic basin, recycling of garbage and toxic or radioactive substances. Similar public campaigns would be promoted in the countries where its members reside in convergences with similar groups or entities. The financial resources used in such campaigns are going to may public biannually in the last quarter of the second year.

Article 8.

The Declaration of the Almendarez River in 1994 urged better communication in the country and among nations about the urgency of maintaining the ecological balance; particularly, in access to water, sanitation of hydraulic basins, growth of the forest reservoirs, toxic and garbage recycling.

In the case of Cuba, Naturpaz is committed to the creation of communities' centers design to address garbage collection in all the cities of the country. Naturpaz is going to create and to use current eco-pacifist TV stations, radio stations, internet Podcasts, magazines, traditional and digital newspapers as a priority to achieve the purposes stated as a mission in its organic bases.
