

Rhododendron in Mt Paektu

There is rhododendron in Mt Paektu (2 750m), the highest mountain in Korea.

Rhododendron, known to be efficacious against ten thousand diseases, adds mystery to Mt Paektu for its flower is beautiful and fragrant and blooms even in snow.

A Persimmon-Tree House

The Korean people translate into reality the policy of the Workers' Party of Korea on planting fruit trees in every house. The picture shows a farmer's house in Chonsam-ri, Anbyon County, Kangwon Province.
