

Ceremonies for the Start of a New School Year Held Across the DPRK

On April 1, ceremonies for the start of the school year of 2023 were held at schools in every part of the Democratic People's Republic of Korea amid the expectations of students' parents and other working people.

The schools were crowded with students, their parents and teaching staff.

Before the ceremonies, the national flag was hoisted.

Officials of Party organizations, government and other relevant organs, teaching staff and senior students welcomed the freshers, applauding and giving them bouquets.

After the ceremonies were over, first lessons for the new school year were given.
