

Children's Palace, Children's Hotel

From KCNA (May 16)

The picturesque Songdowon International Children's Camp is located on the east coast of Korea. It is such an excellent location with a view of translucent blue sea. The camp always resounds with happy laughter and singing of our Children's Union members.

Respected Comrade **Kim Jong Un** said that the country brightens and the society overflows with warm affection when children's laughter grows louder. And he took all the benevolent measures to reconstruct the Songdowon International Children's Camp as befits the requirements of the new century.

It was nine years ago on April 20, 2014 when respected Comrade **Kim Jong Un** visited the camp, upon receiving the report that reconstruction of the camp was completed. Though he was busy with other state affairs he spent long hours at the camp looking around every corner of its interior and exterior including the theater in the children's hall of international friendship, video games room, library, international friendship room, Children's Union meeting room, talent exhibition room and 3-D rhythmic movie theater. He was very satisfied with all of them.

He was also very pleased to see "We are the Happiest in the World" slogan and appraised that the bedrooms, dining rooms and service amenities, as well as the kitchens in the camp buildings No. 1 and No. 2, were all built to children's liking, and that cooking practice room was well furnished to suit the Party's intention so that the children could try cooking by themselves.

Afterwards, he sent to the finely reconstructed camp more than 860 pieces of fittings of more than 40 kinds including various cultural goods, cooking devices, gymnastic apparatus, computers etc., hoping to bring up the children – the kings and queens of the country- into reliable pillars of the country who are knowledgeable, virtuous and healthy. He also gave detailed teachings about the matters related to the camp management.

He also directed his attention lest the members of the Children's Union feel slightest discomfort as they travel to and from the camp. Thus, he took the considerate measure of building an exclusive railroad and exclusive railway station for the camp between the Songdowon Railway Station and Segil(meaning *Three-way*) Railway Station in order to provide the campers with full convenience.

Thanks to the direct initiative and meticulous guidance of respected Comrade **Kim Jong Un**, the Songdowon International Children's Camp assumed a completely changed look as befits the children's hotel and children's palace unparalleled in the world. Today, in the Songdowon International Children's Camp, the members of the Children's Union are enjoying the camp life singing the song "We are the happiest in the world". They are savouring every moment of camp life, full of joy and happiness to be cherished forever.

Foreign children who enjoyed camping in the Songdowon International Children's Camp said that no other country has such a system that spares nothing for posterity, and that they got to know well about the love for future of Marshal **Kim Jong Un** and his greatness as they looked around the campsite.

The peal of laughter and singing voices are now issuing forth from the Songdowon International Children’s Camp built on the far-off sand beach under the warm love of our Party, the Party that translates the beautiful dreams and ideals of young hearts into reality. The laughter and singing will resound forever, handing down the noble love for future of respected Comrade **Kim Jong Un** who places the upbringing of children above all other state and Party affairs.
