

Good Companions of Children

The Democratic People's Republic of Korea has built factories for producing various quality school supplies, and provides kindergarteners and students with them. In 2022, the state provided school uniforms, footwear and bags to the freshers of schools of various levels across the country at its expense, as well as school things to kindergarteners. *Haebalagi*-brand and *Turumi*-brand school things have become close companions of the children and students of the country.

Some of the school supplies produced by the Ryongbong School Supplies Factory

A child using *Haebaragi*-brand school supplies

Haebaragi- and *Turumi*-brand school supplies are good companions of Korean children and pupils.
