Invincible Is the Cause of the Workers' Party of Korea Led by the Great Leader

- Commemorative article published on the occasion of the 75th founding anniversary of the Workers' Party of Korea -

All the members of the Workers' Party of Korea(WPK) and the Korean people are now greeting the 75th founding anniversary of the WPK as the most auspicious revolutionary festival.

The sacred flag of the WPK flies high in the sky of this October, reminding millions of party members and entire Korean people of the glorious 75 years of victory and honor, and they pay the noblest tribute and present the highest glory to the great President Comrade **Kim Il Sung**, the founder and eternal leader of the WPK, and to the great leader Comrade **Kim Jong Il**, the symbol and eternal head of the WPK.

Their hearts are brimming with feelings of absolute confidence in Comrade **Kim Jong Un**, the supreme leader of the Party, state and armed forces, who splendidly carries forward the ideology and leadership of the great President and the great General.

The Korean people are winning victory after victory even though they are going through the worst adversities of global spread of malignant virus and continuing wave of natural disasters while having to face outrageous challenges from imperialism. The progressive peoples of the world are expressing absolute admiration and appreciation for their indomitable spirit and heroic struggle and showing great interest in the WPK's outstanding leadership capability and the key to its success.

It is only natural that the international community finds the answer in the preeminent greatness of the respected Supreme Leader who steers the course for a socialist power and the cause of world independence holding aloft the banner of independence and justice with his distinguished statesmanship and noble virtue that capture hearts of the world people as well as his tireless and energetic revolutionary leadership.

The reality of the DPRK that pulsates with the resounding cheers for the WPK epitomizes the 75-year history of the Party and gives another strong proof of the fact that the cause of the leader and the Party to achieve the independence of the popular masses is invincible when it is led by a great leader.

The great leader Comrade **Kim Jong Il** said as follows;

“As there is Comrade Kim Jong Un, the final victory of the revolutionary cause of Juche is firmly guaranteed and our country’s future is indefinitely bright and brilliant. As there is Comrade Kim Jong Un, I have iron nerves about the future of our revolution, and I am full of confidence in its victory.”

The WPK and the Korean people, who had highlighted the first century of Juche with victory under the leadership of the great Comrade **Kim Il Sung** and great Comrade **Kim Jong Il**, have held in high esteem the respected Comrade **Kim Jong Un** at the historic dawn of the new century of Juche, reflecting their faith and will to complete to the end the cause of the Korean revolution pioneered on Mt. Paektu.

During those historic days, the respected Comrade **Kim Jong Un** had solemnly announced his firm will to lead the Party and people only in the way of the great President and the great General and fight more vigorously toward ultimate victory. In the course of leading the Party, the revolution, the country and the people for the last nine years, he accomplished immortal feats that would go down in history.

The greatest contribution he has made to the WPK and the revolution is that he has strengthened and developed the WPK into a party of the leader and the most powerful political leadership organization within which the unitary ideology and leadership system is firmly maintained and carried on.

A revolutionary party is, in essence, a party of the leader that struggles to fulfill the idea and cause of the leader, and the keystone in the building of the party is to establish unitary ideology and leadership system and ensure its continuity.

This is valuable experience the WPK has gained in the whole course of the arduous Korean revolution, and, at the same time, a serious lesson learned by the international communist movement through its twists and turns.

On April 6th, 2012, a historic day in time when a new century of Juche was drawing near, the respected Supreme Leader, in his talks with leading officials of the Party Central Committee, made a scientific analysis of perfect coherence and continuity of revolutionary ideas of the great President and the great General, formulated their ideas into **Kimilsungism-Kimjongilism** and declared it as the guiding ideology of the WPK. In the 4th Conference of the WPK, held a few days later, he proclaimed that modelling the whole society on **Kimilsungism-Kimjongilism** is the ultimate programme of the Party.

The respected Supreme Leader not only gave perfect answers to all the theoretical and practical questions arising in the Party building and its activities through his outstanding ideological and theoretical activities so as to lay solid ideological and theoretical foundations for the strengthening and development of the WPK, but also further consolidated and developed it into the party of great Comrade **Kim Il Sung** and Comrade **Kim Jong Il** and into the Juche-oriented revolutionary party where the unitary leadership system of the Central Committee was firmly established.

At this new historic juncture, the WPK has maintained the political purity of the ranks of the leading officials and the organizational consolidation of the ranks of the Party members at a higher level, and a radical turn has been made in the work style and attitude of the Party organizations and officials thereby strengthening the Party into an ideologically-pure and organizationally-integrated entity that moves as one under the unitary leadership of the Party Central Committee; all the credit goes to the wise leadership of the respected Supreme Leader.

The respected Supreme Leader, in his historic speech “Making selfless, devoted efforts for the good of the people is the mode of existence and source of invincible might of the Workers’ Party of Korea” and other works and instructions, defined the essence of **Kimilsungism-Kimjongilism** as the people-first principle, set it as the political doctrine and mode of the WPK, and made sure that an intensive drive was launched to establish a revolutionary climate of giving top and absolute priority to the interests of the people throughout the Party and to thoroughly apply the work style of the great President and the great General under the banner of “Let the entire Party make selfless, devoted efforts for the good of our great people!”

Today, the people-first principle that regards the people divine, serves people and mobilizes their inexhaustible strength runs through all party meetings at different levels from the Central Committee to grass roots organizations, and the whole Party follows the Chairman into the masses sharing weal and woe with them to find the path to victory and prosperity and lead them along. Such seasoned leadership art constitutes the unique political mode of the WPK that no other foreign party can emulate.

As it is led by the respected Supreme Leader, the WPK is fulfilling its honorable mission and duty of the organizer and guide of all victories of the Korean People more splendidly than ever.

Another great feat the Respected Supreme Leader has performed for the Party and the revolution is that he has further consolidated the overall state power and elevated the strategic position of country onto the highest level by bringing about world-startling miracles and great turns in all fields of the building of a powerful socialist country through his amazing revolutionary practices.

The harmonious whole in which the leader, the party and the masses are united with a single ideology and affection serves as the cornerstone for the existence of the Party and the state and constitutes the strongest state power above all.

The respected Supreme Leader **Kim Jong Un** said that the WPK’s philosophy of trust is, trust can change people and the times and trust guarantees the future. He also said if there is the almighty weapon that can rule the world, it would be a single-minded unity and a harmonious whole of the Party and the masses. He has invalidated the imperialists’ logic of power by embracing the whole country and people with self-sacrificing love and trust and raising a great family of a single heart that shares the destiny with the Party Central Committee.

The respected Supreme Leader has turned the motherland into a world military power and boosted the strategic position and defense capabilities of the country onto the highest level. This is an extraordinary achievement he has made to the five thousand-year history of the nation.

True peace and security and the right to development are secured not through humiliating solicitation nor negotiations for compromise, but by possessing nuclear deterrent for self-defense.

The respected Supreme Leader, out of his firm resolve and will to terminate the pressure and political and military threats from the hostile forces aimed at obliterating the DPRK's rights to sovereignty, existence and development, had brilliantly accomplished the great historic cause of building the strongest war deterrent.

Under the leadership of the respected Supreme Leader, the armed forces of the DPRK grew into invincible combat forces and the work of arming the entire people, fortifying the whole country and developing the defense industry in a Juche-oriented way has entered a higher stage. The DPRK's defense capabilities today have become a reliable military guarantee not only for the prosperity of the country and the victory of the revolutionary cause of Juche, but also for the stability of the Korean peninsula and the region at large.

As our people waged a vigorous struggle holding firmly in their hands the treasured sword of self-development and science and technology provided by the respected Supreme Leader, the material and technical foundations of the self-sufficient national economy were reinforced and supplemented and new springboards for the building of an economic power and the improvement of people's livelihood were built.

The respected Supreme Leader has accomplished remarkable feats in consolidating the overall state power and raising the strategic position of the country to the highest level such as building the country into a politico-ideological power admired by the world, securing war deterrent for self-defence, further strengthening self-sufficient national economy and laying the foundation for building a sci-tech power. His accomplishments will be honored forever down through generations to come.

The respected Supreme Leader has made yet another great contribution to the Party and the revolution by indicating the way of implementing the independent foreign policy and immensely enhancing the international prestige and influence of the WKP with his outstanding and distinguished leadership ability and through energetic external activities.

The respected Supreme Leader is defending justice and peace and steering the humankind's cause of independence through the turmoil of current century. His steadfast idea of independent foreign policy and the accomplishments of his dynamic external activities are drawing the attention of the world.

In reports and addresses made on momentous occasions including the 7th Congress of the Party, the New Years and the 1st session of the 14th Supreme People's Assembly, the respected Supreme Leader has clarified principles and methods of implementing the foreign policy one after another such as firmly adhering to the revolutionary principles and Juche-oriented stand of the great President and the great General, maintaining the foreign policy principles of independence, peace and friendship and developing external relations in line with the elevated strategic position of the state.

With his strong independent stand and superb external activities that draw tremendous attention from the entire world, the respected Supreme Leader raised the dignity and prestige of the country to the highest level in the shortest possible period and brought astonishing changes to the structure and power dynamics of the world politics; and herein lies the unparalleled greatness of the respected Supreme Leader as an eminent leader of the world politics and the master of Juche-oriented diplomacy.

In less than a five month period in 2018, the respected Supreme Leader demonstrated his outstanding political ability and prestige as an eminent leader in international politics by holding three DPRK-China summits and the DPRK-U.S. summit in Singapore which were unprecedented in history; and last year, he brought great excitement to the entire globe by holding the DPRK-Russia summit, the DPRK-China summit and the DPRK-U.S. summit at Panmunjom.

The respected Supreme Leader demonstrated at home and abroad the invincible might of the DPRK-China friendship with socialism at its core through his four visits to the People's Republic of China and General Secretary Xi Jin Ping's visit to the DPRK; and he ceaselessly strengthened the unity with the parties in socialist countries through his official goodwill visit to the Socialist Republic of Vietnam and the development of friendly and cooperative relations with socialist countries including Cuba and Laos.

Through his historic visit to the Russian Federation, his meeting and talks with President Putin and so on, the respected Supreme Leader set a brilliant example of developing good neighborly relations and friendly and cooperative ties with the countries that respect the DPRK's national sovereignty and are friendly to it and he further enhanced the level and scale of such relations.

It is a matter of course that today, the major powers that exert great influence over the world politics respect the DPRK and seek ways to improve the relations, and that many state leaders, politicians and media highly praise the respected Supreme Leader as "the most ideal state leader in the modern times", "a reasonable and seasoned leader with whom the heads of states around the world can talk candidly" and as "the most influential leader in the world politics", transcending the differences in ideas, political systems and religions.

Indeed, in the past nine years, the DPRK has achieved many unprecedented historic miracles in succession, undeterred by the most severe challenges which, to say nothing of achieving development, others would not even have survived, and has rapidly emerged as a political power and a strategic state that has tremendous state power and influence no one dares to challenge.

This miraculous reality is not a coincidence that came about with the passage of time. This would be unthinkable apart from the outstanding leadership of the respected Supreme Leader who devotes himself selflessly to the country and the people with his gifted wisdom, indomitable faith, high sense of duty for the Party and the revolution, and ardent love for the nation.

Today, the WPK and the Korean people are full of passion to fight more vigorously for the Korean revolution and the cause of world independence with immense national pride and dignity of being led by the respected Supreme Leader, the peerless great person recognized by the whole world.

It is the revolutionary temperament of the WPK and the Korean people to make a breakthrough of advance toward yet another victory without a hint of complacency no matter how many victories they have already won.

The WPK and the Korean people headed by the great Comrade **Kim Jong Un** will substantiate the validity and invincibility of their cause in practice.

International Department,
Central Committee
Workers' Party of Korea
