To fulfill the unanimous desire and will of all progressive peoples of the world, I, from Nepal, am pleased to extend one more best wishes to the most auspicious events in the significant year Juche 111 (2022) while offering deep tributes with high respect to Comrade Kim Jong Il dedicating this article to the Bright Star of the Korean people.

The Great Leader Comrade Kim Jong Il symbolized the dignity that is Democratic People's Republic of Korea (DPRK). His remarkable achievements as guardian of Socialism and Justice, he conducted energetic activities for the victory of socialist cause, global peace and stability and friendship and solidarity among peoples under the uplifted banner of independence against imperialism thus raising the international position and prestige of the DPRK and making immortal contribution to the human cause of independence, will remain in golden letters in the history of mankind.

The significance and historical importance of his memorable and immortal services will remain unforgettable, shining on the hearts and minds of human - beings all around the world.

"Socialism is a Science!"

"Abusing Socialism is intolerable!" - said dear leader Comrade Kim Jong Il and protected, the dear socialism of the Korean people in high dignity in his life time.

Comrade Kim Jong Il's 47-years long leadership is memorable among the entire Korean people and the progressive people of the world, because he gave importance in Comradeship and believed in the Politics of Love and Trust which was the weapon of his victory.

He used to say - "People are teachers and creators of all things. If there is an almighty being in the world, it is none other than the people. The ability of an individual is limit, whereas the might of the people is limitless. The party and the leader cannot exist without people. The leader learns the wisdom, leadership, ability and virtue from the people. Therefore, the leader and the parity should serve the people."

With notable foresight and extraordinary political ability, dear leader Comrade Kim Jong Il recognized that only defense centered politics and army first leadership would allow the country to defend itself and its people's dignity against the violent challenges of the imperialists and to secure its prosperous future.

Leader Kim Jong Il once said-"the army centered policy of our party helps to establish people's army as an invincible, victorious army for national defense, it also sets the army as an example in the campaign to develop the driving force of the revolution that surrounded the Korean people's Army, and vigorously accelerates socialist construction as a whole with the army as the pillar of the revolution."

Comrade Kim Jong Il could not even think such outcome simply because the Korean people are so valuable and sacred to him, So, he faced every hardship, which was possible only because of his army first politics and socialism based on masses. He encouraged the heroic Korean people to fight the decisive battle to defend their beloved socialism and to finish the imperialist attempts. The result was that the socialism and the dignity and interest of the people were defended by Leader Kim Jong Il and is being defended wisely by the great leader His Excellency Marshal Kim Jong Un, President of the State Affairs of the DPRK, General Secretary of the Workers' party of Korea and Supreme Commander of the Armed Forces of the DPRK.

Leader Kim Jong Il advanced the line of modeling the entire Workers' Party of Korea on Kimilsungism-Kimjongilism and ensured that the work of establishing the monolithic ideological system was intensified constituted an occasion for a radical turn in ensuring the unitary character of the leaders' ideology and leadership.

Development of the WPK into the party of the leader, into the party of Comrade Kim Il Sung, both in name and in reality is a great exploit performed by leader Kim Jong Il.

Now, with the development of nuclear devices in the DPR of Korea, the imperialist force and its allies will never dare to think making attempts against the strong socialism and dignity of the Korean people, because the imperialist know that the Korean people will not let them to live alone. Korean people have already expressed their desire that there will be no earth without the Korean people and that they are ready to blast themselves to save their great leader Marshal Kim Jong Un and their beloved Korean style socialism and sovereignty of their beloved nation- the Democratic people's Republic of Korea.

Thanks to the eternal President great leader Comrade Kim Il Sung and eternal dear great leader Comrade Kim Jong Il, today, the idea of self reliance and army -first politics are developed in all fields of the Korean people's live. Therefore, Korea has become a strong and powerful socialist country, independent in ideology, self-reliance in economy and capable in defending the sovereignty of the country. Korean people are enjoying happy life receiving basic needs of their life free and compulsory education, free medical care, and above all love and affection from the great leaders and Korea is now free from pollution, free from any kind of tax system, free from any dangerous diseases AIDS and Covid -19 and its variants among other. These all became possible only through the implication of the policy of self-reliance and Songun and trusting and loving the people with fatherly care by President Kim Il Sung, dear leader Comrade Kim Jong Il and His Excellency Marshal Kim Jong Un, President of the State Affairs of the Democratic People's Republic of Korea.
