On the occasion of the 80th birth anniversary of the Great Leader Comrade Kim Jong Il, I would like to convey the heartfelt regards to his contribution to the world independent cause and the Korean revolution.

The Democratic Republic of Korea is a mighty socialist state of the world. It has achieved tremendous successes in all fields of development. The journey of DPR Korea's developmental activities was initiated by the Great Leader President Kim Il Sung, the founder of the socialist Korea. After his sad demise Great Leader Comrade Kim Jong Il took the responsibilities to run the country. He not only continued the ongoing march of the development, but he made epoch-making contributions in the developmental history of the country. In fact, he is the main architect of DPR Korea's development.

Great Leader Comrade Kim Jong Il (1942-2011) was recognized as an unexcelled statesman, by not only friends of his socialist country, but also statesmen of the US.

When the Western countries were fussing about the "end of socialism" by taking advantage of the collapse of socialism in the Soviet Union and other eastern European countries, he dealt a decisive blow at them. He declared, socialism is a science. Socialism has been frustrated in a number of countries, but scientific socialism is as alive as ever in the minds of the people. The crumbling of socialism in various countries does not mean the failure of socialism as science but the bankruptcy of opportunism which has corrupted socialism. Although socialism is temporarily experiencing a heartrending setback because of opportunism, it will without fail be revived

and win ultimate victory for its scientific accuracy and truth.

The Great Leader Comrade Kim Jong Il was not only an outstanding statesman, but also an extraordinary theoretician.

By energetically conducting ideological and theoretical activities with extraordinary passion and ability to explore, Kim Jong Il ensured that the Juche idea shone more brilliantly as a great ideology guiding the era of independence.

He developed and enriched the idea, authored by President Kim Il Sung, by elucidating such issues as the one of consciousness of man, the one of the position of the masses as the driving force of social movement, the one of the role of the leader in the revolutionary struggle of the working class, the one of the leader being in inseparable relationship with the party and the masses, the one of the strategy and tactics of the revolution and the one of accomplishing the people's cause of independence.

The Great Leader Comrade Kim Jong not only enriched the Juche Idea, but also formulated the idea as Kimilsungism, a new ideology in the world. By formulating Kimilsungism Comrade Kim Jong Il made an unparalleled contribution in the history of theoretical arena,

After the sad demise of Comrade Kim Jong Il the General Secretary of the Workers Party of Korea and Supreme leader of DPR Korea's armed forces Comrade Kim Jong Un further enriched Kimilsungism and transformed it into Kimilsungism-Kimjongilism.

Kimilsungism-Kimjongilism is the people-first ideology that puts forward the popular masses as the most precious and powerful beings in the world.

Kimilsungism-Kimjongilism, for the first time in history, elucidated that the popular masses are the subject of history by applying the philosophical

principle that man is master of everything and decides everything in the social history.

I would like to conclude my speech to say that as long as the world exists the Great Leader Comrade Kim Jong Il will be remembered by the working and progressive people of the world.

I would also like to say that under the wise leadership of Comrade Kim Jong Un the DPR Korea will be further developed and strengthened.

Long live Comrade Kim Jong Un

Long Live great Kimilsungism-Kimjongilism

Long live DPR Korea
