

Leader's Pleasure

Kim Jong Un, president of the State Affairs of the DPRK, finds the greatest joy in the pleasure and wellbeing of the people.

In January 2025 a splendid ceremony was held to inaugurate new regional-industry factories in Jaeryong County of the DPRK. These factories were built in the efforts to carry out the first-year tasks for implementing the Regional Development 20×10 Policy of the Workers' Party of Korea on building modern regional-industry factories in 20 cities and counties every year.

At the inauguration ceremony, Kim Jong Un reportedly said that as he saw all the people of the region full of excitement and joy that day, he felt greater pride and dignity in waging the revolution and struggle and it made his determination firmer to identify what should be done more for the people and shoulder their implementation.

According to local media, when he visited the Pyongyang General Hospital newly built on the banks of the picturesque Taedong River in the capital city of Pyongyang in February 2025, he said with satisfaction that he was very pleased to think that the people can be completely recovered from diseases and promote their health while enjoying the most advanced medical service as well as civilized and excellent convenience, adding that the hospital is another proud asset of the DPRK which absolutely subordinates everything to promoting the people's wellbeing.

If the people are pleased and happy, it brings pleasure and satisfaction to him.

He has many wishes and wants to do many things, and all of them are geared to providing the people with a more affluent and civilized life.

When he visited the Ryugyong General Ophthalmic Hospital, a modern medical centre built in Pyongyang, he earnestly said that he desired to have a general ophthalmic hospital on the world's advanced level built for the people and it was his heart's desire for them. And during his trip to the Yangdok Hot Spring Resort nearing inauguration, he told that the money spent for the good of the people is the money well spent, adding that he feels very pleased to be able to provide the people with a comprehensive and multi-functional resort and it seems that he carries on the revolution to relish such delight.

True to his people-oriented outlook, world-startling structures are constantly coming into being in the DPRK.
