The exhibition will run from November 7th to November 27th, 2024, with an opening reception on Thursday, November 7th, from 6 to 9 PM.

Echoes of Revival explores the cyclical nature of transformation and renewal, reflecting on how these forces manifest in nature, culture, and personal identity. Through a diverse array of mediums, Berlin's work delves into the rhythms of change that shape our world, offering a fresh perspective on the process of rebirth. Each piece in the exhibition is a meditation on the subtle and powerful patterns of revival, inviting viewers to engage with the recurring themes of regeneration and the constant evolution of life.

Berlin's work creates a visual narrative that weaves together the human experience and environmental transformations, inspiring moments of introspection. Her pieces are not merely visual representations; they are immersive experiences that encourage viewers to reflect on the cycles of growth, decay, and renewal that define both personal and collective journeys. By exploring these cycles, *Echoes of Revival* offers a path to awakening and fresh perspectives on the ever-changing nature of existence.
