HOURIE
Energy Solutions

Our Team:

We believe that communication is the key to our success, we have the required expertise to work with you to ensure your vision comes to fruition.

Mohammad Shokor: Electrical Engineer with more than 9 years of experience in Solar & Energy Systems, All Designs are made according to best standards to be Energy Efficient & Feasible.

Toni Matta: Civil Engineer with consultancy experience, Toni is responsible for all company tasks related to structures. Designs are done based on high-end engineering standards.

Asaad Noun: Electrical Engineer with more than 15 years of experience in MEP Projects, Solar Projects are not efficient without Good Quality of Cabling & Routing & Protection.

Hassan Sweif: Electrical Technician with 20 years of experience in Electrical Installations, 9 of them are in pure Solar Installations.

Clara Noun: Energy Engineer responsible for the follow-up with systems energy production.

It’s simple: we can’t continue to burn things to meet our energy needs.

HOURIE
Energy Solutions

NOT
Sustainable

REVOLUTIONARY SOLUTIONS TO
SOLVE TODAY’S GROWING CLIMATE AND ENERGY CHALLENGES

Fighting climate changes, reducing pollution, and phasing out fossil fuels means the world needs to develop revolutionary clean energy technologies. Hourie Energy Solutions will help you meet your basic necessities with renewable solutions, making clean energy a reality.

Sustainable

OUR MISSION

Hourie Energy's vision is to contribute positively to a sustainable lifestyle. We strive to increase reliance on clean and abundant renewable energy by providing world class customized renewable energy solutions. We ensure a professional customer experience with high-quality installation.

OUR VALUES

High-Trust Culture

A. Fulfill our commitments to homeowners, employees, Installers, technicians and vendors.
B. Strive for the best & most optimum solutions.
C. Respect and empowering one another

Be Efficient

A. Produce results that are worth more then they cost to deliver.
B. Obsessively reduce cycle times.
C. Staying lean—eliminating unnecessary costs.

Continuously Improve

A. Learn all the time.
B. Don't hesitate to try new things.

HOURIE
Energy Solutions

HES S.A.L. Innovation

Combining Engineering with Architecture

Hourie Energy Solutions is a full-service end to end renewable energy solution provider serving residential and commercial establishments. We provide solutions in the area of Solar PV, UPS Systems ranging from small homes to Extra large Villages. We stand with our customers at every step of their implementation starting with an initial consultation, site visit & evaluation, design, installation, data monitoring and long-term maintenance. Our dedicated team of engineers are passionate about renewable energy. They are the best and the brightest minds in the renewable industry today.

HOURIE
Energy Solutions

Hourie Energy Solutions brings over 30 years of combined experience and knowledge to every project. We are passionate about renewable energy and we love what we do. We care about our environment and try to positively contribute towards sustainable living. Whether you're looking to cut your home utility bills, manage power cuts, add value to your property, make the world a better place, or you are searching for a cost-effective way to control your energy expenses, Hourie Energy Solutions is the right answer for you. Each customer's energy needs are unique. We customize solutions to meet your specific energy need. We respect your lifestyle in the process.

Hourie Energy Solutions follows the highest industry standards to provide customized solutions. Every member of our team brings the best in Engineering Designs, Energy Analysis, Shading Studies and Electrical Blueprints to provide the most appropriate solutions. Hourie Energy Solutions goes the extra mile to put in the efforts to help our customers migrate to the renewable energy in the smoothest and transparent way.

Our Scope of Work

Hourie Energy Solutions is full service, end to end solution provider

We completed the long and difficult process of becoming a full-service solution provider company. We have brought everything in-house and as a result we now control everything in the sales and installation process from A-Z.

1. **Sales**

2. **Proposals**

3. **Sales Operations Support**
   a. Setter program (all leads internally generated)
   b. Technology

4. **Project Operations**
   a. Support
   b. All documentation support

5. **Bureau Operations**
   a. Permitting
   b. Net metering agreements

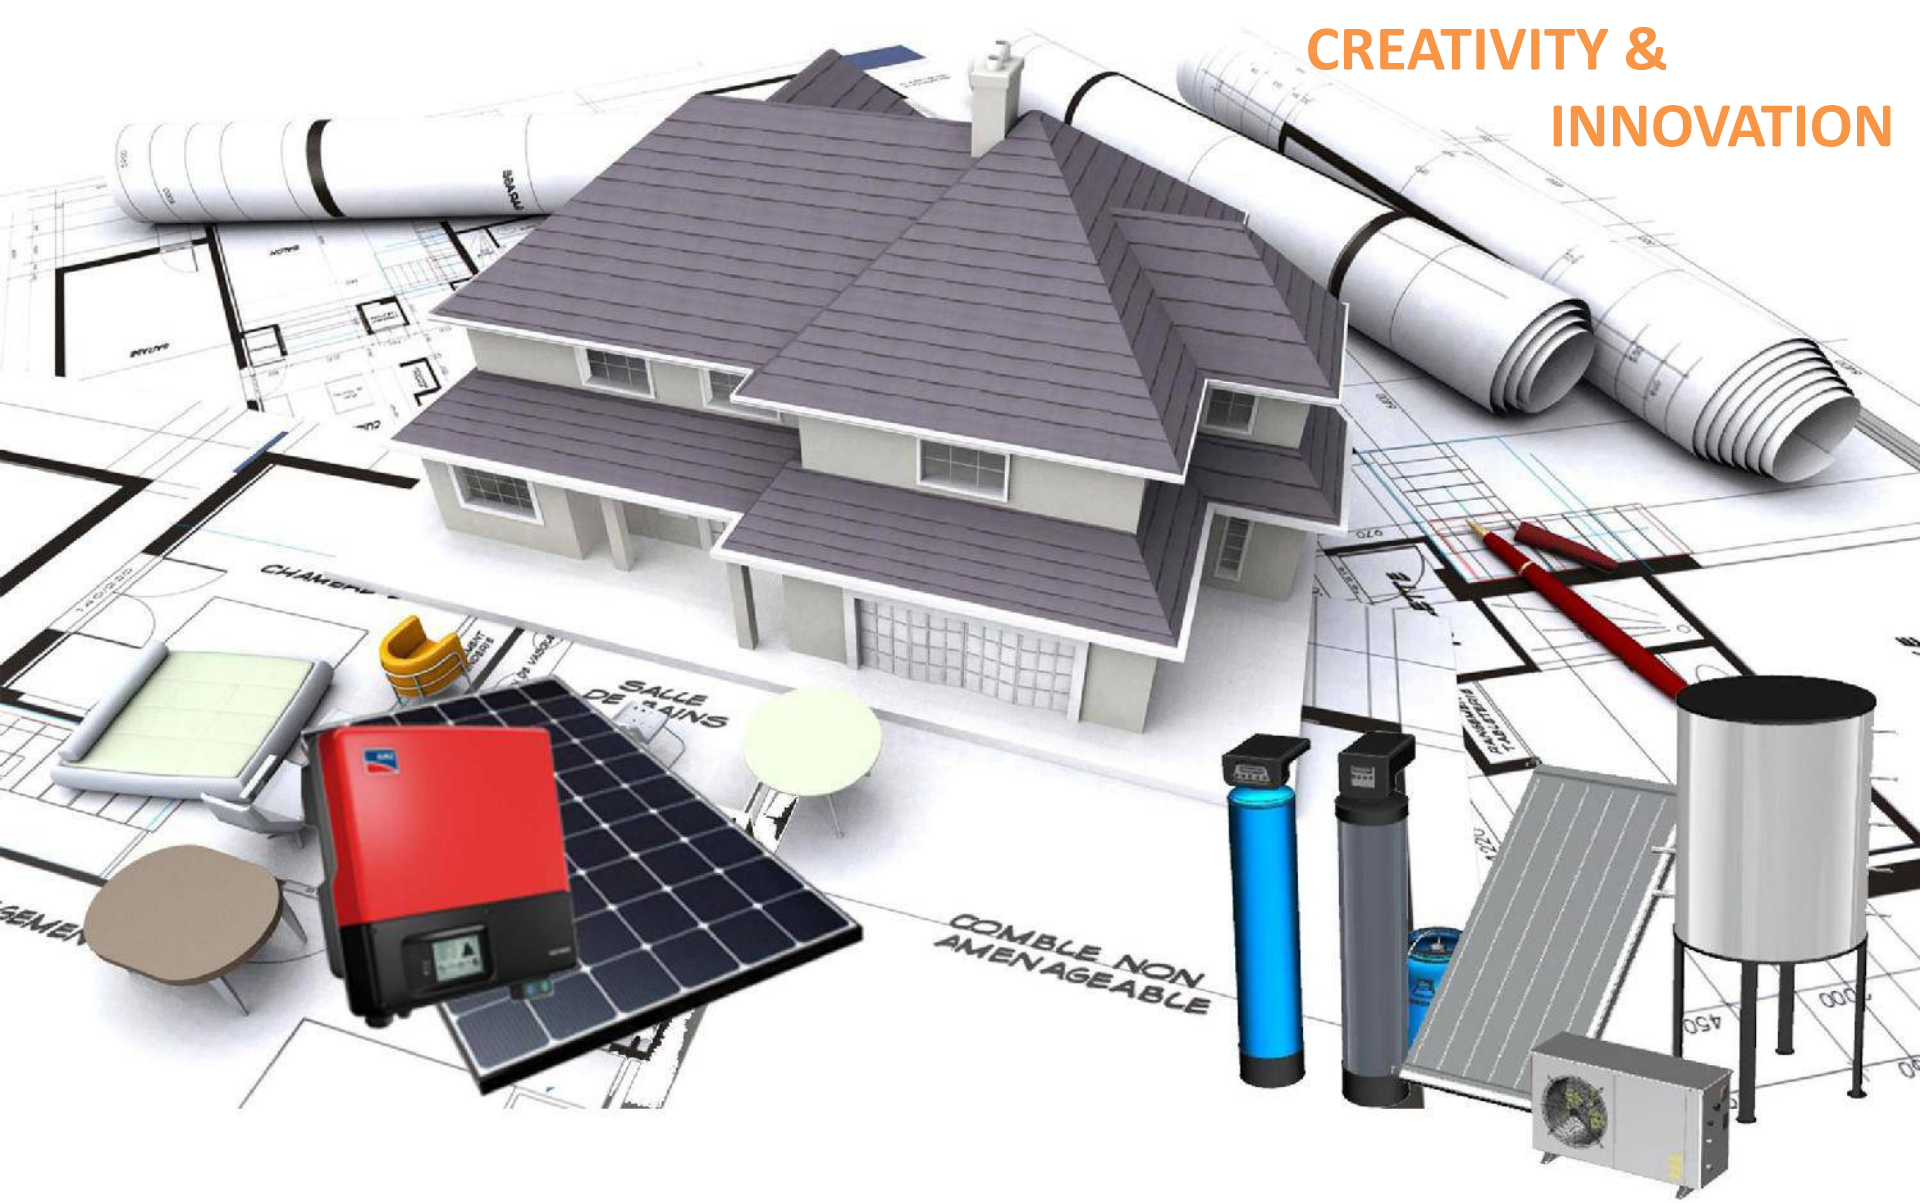

6. **Customer Service**

7. **Design/Engineering**
   a. Final design
   b. Ele/Str design

8. **Field Operations**
   a. Site surveys
   b. Permits running
   c. Tech visits

9. **Construction**
   a. Supply chain distribution
   b. All installations
   c. All electrical work

CREATIVITY & INNOVATION

It’s been said that we have the best customer sales proposal in the business. Which is not a surprise since it was designed by engineering team .

Our sales proposal hits the key points and flows in a logical pattern for how a direct sales rep would actually sell. It wasn’t designed by someone who doesn’t understand sales and then expects you to conform to their convoluted process. Our customers universally like our design proposal. It is adaptable and flexible to fit different selling styles and is adjustable for different markets with different economics.

WE UNDERSTAND THIS FORMULA:

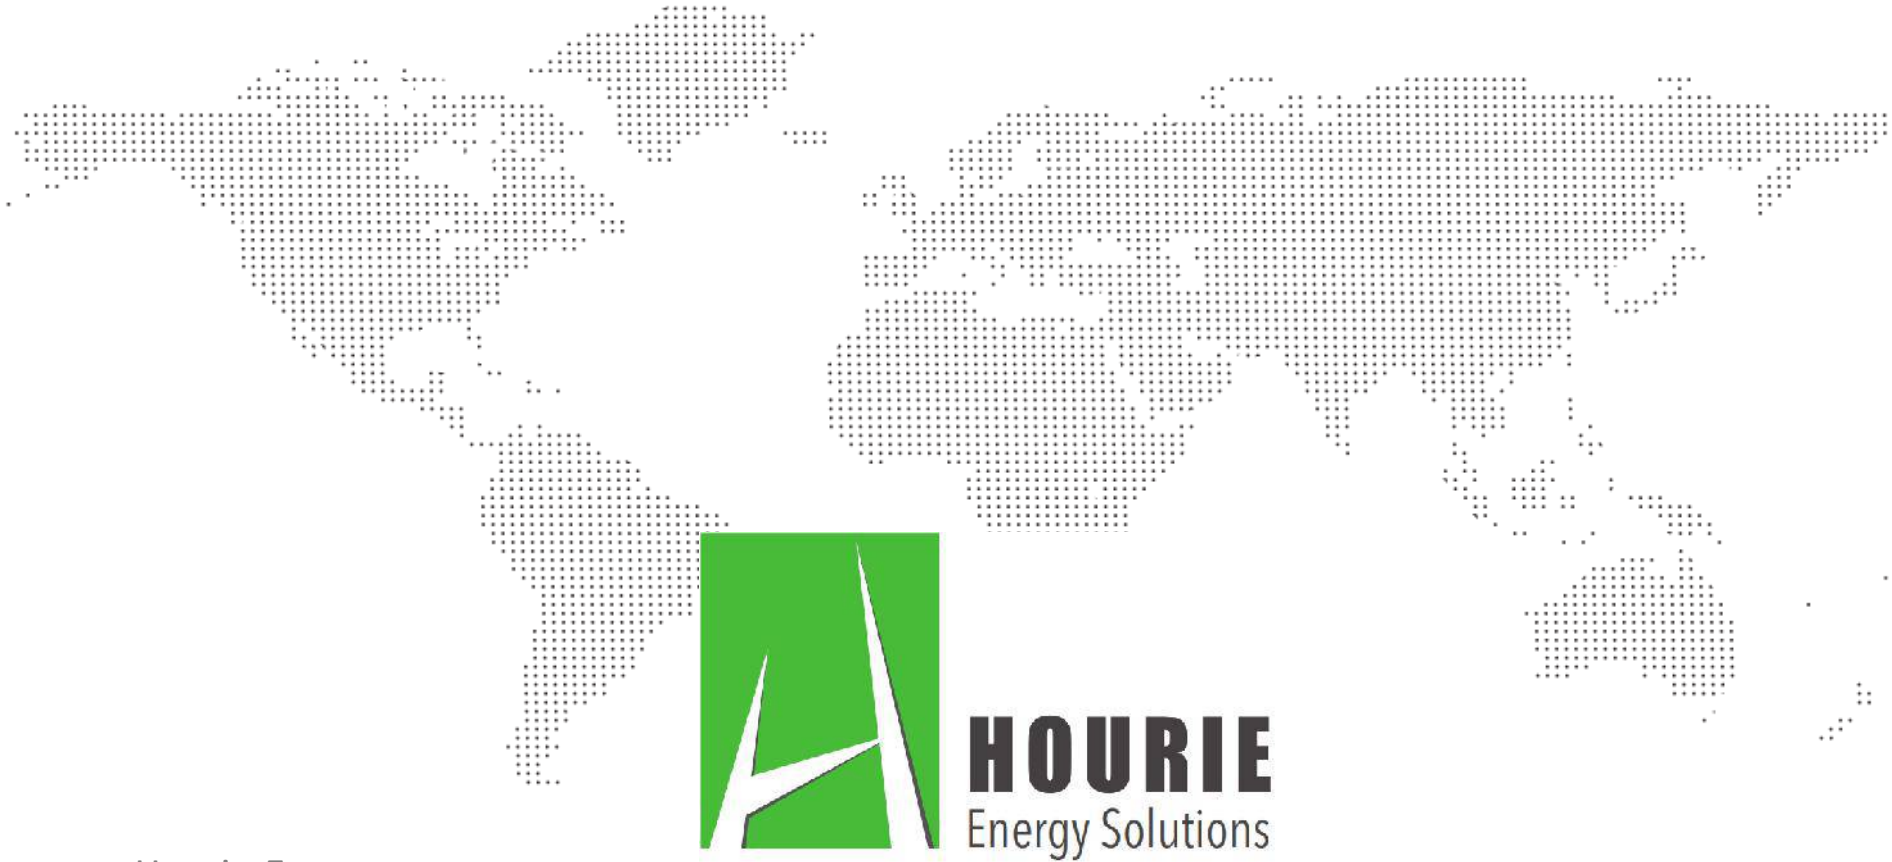

Short Lead Times **+** High Quality Installs **=** Happy Customers

Happy customers **=** Happy sales Reps

SHORT INSTALL TIMES + HIGH QUALITY INSTALLS

"To cherish what remains of the Earth and to foster its renewal is our only legitimate hope of survival."
~ Wendell Berry
