

At Daffodil preparatory School, our Geography curriculum takes students on a journey of discovery and exploration across the globe. From Year 1 to Year 6, students delve into diverse topics ranging from logical environments and weather patterns to global issues such as climate change and human rights. Through hands-on activities, projects, and fieldwork, students develop essential geographical skills such as map reading, data analysis, and critical thinking. They explore the interconnectedness of the world's ecosystems, cultures, and economics, building a deep understanding of global citizenship and environmental stewardship.

Geography

AT DAFFODIL PREPARATORY
