GYM EQUIPMENT, RACKS, RIGS AND ACCESSORIES

"Our mission is to make, not only Sweden, but the world healthier, stronger and more sustainable."

- Kari Jernvall Founder and Product Designer

Welcome!

Welcome to the Gymleco Family!

We are a Swedish, family owned company with a passion for health, strength, innovation and sustainability. Gymleco is today one of the biggest designers and producers of strength training equipment in Europe. With customers all over the world, we have grown to be one of the leading gym machine brands with our innovative design and biomechanical uniqueness.

We offer a complete line of strength training and exercise equipment, and are one of few in the Nordics producing our products by ourselves. We want our customers to see us as a total solution and a profitable investment.

Since 1994 Gymleco has focused on designing Swedish, unique and functional equipment with a long lifespan and without maintenance needs. At Gymleco we are truly passionate about fitness and hope that you want to join us in achieving our dream of a healthier world and a sustainable future.

Why choose Gymleco?

- Brand founded in 1994
- Biomechanical Uniqueness
- Innovative and Original Design
- NO maintenance
- Quality materials
- Small footprint
- Suitable for all users
- Ergonomically correct
- Affordable quality

- = Perfect functionality thanks to years of experience.
- = We create what the users want and get results from.
- = Own design, no copies!
- = Avoid headaches from machines that break
- = Machines made for commercial use.
- = Optimize your surface and fit more machines.
- = Easy to use and understand for everybody
- = You will not get injured while training
- = Fair prices from the start

Length: 177,5 cm

Grip 30mm / 51 cm / 69 cm c/c

Fixed Barbells PU, straight or curved

Art.nr: 825

Gymleco's fixed barbells are designed in a classic, timeless design and are covered in polyurethane material. Polyurethane is similar to strong rubber and makes the barbells extremely durable. Choose between straight or curved model.

Perfect for all professional gyms!

Available in sizes:

7,5 to 30 kg with a 2,5 kg weight increase in between and from 30 kg to 50 kg with a 5 kg weight increase in between.

Pump Set

Art.nr: 480-20

Are you looking for a space saving barbell with weights? Then we have the solution for you! A barbell set with a total of 20 kg consisting of a barbell, a pair of spring collars and black rubber weights: 2 x 1,25 kg, 2 x 2,25 kg and 2x 5 kg.

Hole diameter: 31 mm Bar diameter 30 mm

Pump Set Polyurethane

Art.nr: 480PU-20

Here is a barbell set perfectly made for group classes in professional gyms. The weights are of polyurethane material and therefore very durable. The set is total 20 kg and consists of a barbell, a pair of spring collars and weights: $2 \times 1,25 \text{ kg}$, $2 \times 2,25 \text{ kg}$ and $2 \times 5 \text{ kg}$.

Hole diameter: 31 mm Bar diameter 30 mm

Urethane Fractional Bumper Plates

Art.nr: 824F

These small weights are excellent for small weight changes in your workout and color coded for easy identification. Premium urethane provides unmatched durability and will not damage the bar.

Hole diameter 50mm

Available in sizes: 0,5kg | 1kg | 1,5kg | 2kg | 2,5kg | 5kg

Technique Weights

Art.nr: 824T

Gymleco technique weights in a unique mixture between plastic & rubber provide long durability and quiet use. Extra wide base provides good stability, perfect for training all types of technique lifting.

Hole diameter 50mm

Available in sizes: 2,5 kg | 5kg

Black Weight Plates in Rubber

Art.nr: 824B

Gymleco weight plates are made of commercial quality, with a diameter of 450 mm and a strong reinforced steel center in the middle. Perfectly suitable for the gymcenter, functional fitness box or the commercial homegym.

Hole diameter 50mm

Available in sizes: 5kg | 10kg | 15kg | 20kg | 25kg

Colored Weight Plates in Rubber

Art.nr: 824C

Gymleco weight plates are made of commercial quality, with a diameter of 450 mm and a strong reinforced steel center in the middle. Perfectly suitable for the gymcenter, functional fitness box or the commercial homegym.

Hole diameter 50mm

Available in sizes: 5kg | 10kg | 15kg | 20kg | 25kg

Bumper Plates

Art.nr: 824H

Gymleco's Training Bumpers are made of recycled, vulcanised rubber. These bumpers are designed for hard weight training.

Thanks to their soft rubber they're sound-absorbing and durable. This makes the bumpers some of the toughest on the market. Fantastic shock absorbing when you lift!

Hole diameter 50mm

Available in sizes: 5kg | 10kg | 15kg | 20kg

Colored Weight Plates in Rubber with handles

Art.nr: 423

Gymleco's weight plates are made of high quality rubber and have a good design suited for any commercial gym. These weight lifting plates have handles for easy change of weights when working out.

Hole diameter 50 mm

Available in sizes: 1,25kg | 2,5kg | 5kg | 10kg | 15kg | 20kg | 25kg

Black Weight Plates in Rubber with handles

Art.nr: 422

Gymleco's weight plates are made of high quality rubber and have a good design suited for any commercial gym. These weight lifting plates have handles for easy change of weights when working out.

Hole diameter 50mm

Available in sizes: 1,25kg | 2,5kg | 5kg | 10kg | 15kg | 20kg | 25kg

Black Weight Plates in Polyurethane with handles **Art.nr: 822**

Gymleco's international weight plates with handles, enhanced with the markets strongest material (**polyurethane**) that is similar to strong rubber. These weights from Gymleco are inspired by our most popular weight plates, article 423.

They are of the highest quality and made for commercial use in the gym. The plates have handles for easy switch between machines. Unlike bumper plates these weights are hard which doesn't make them "bumpy".

Hole diameter 50mm

Available in sizes: 1,25kg | 2,5kg | 5kg | 10kg | 15kg | 20kg | 25kg

Steel Dumbbells 7,5 - 100 kg

Art.nr: 838

Gymleco's new, unique steel dumbbells. Really robust weights that can stand hard weight training. No loose detail or surface treatment that can loosen or flatten.

Available in sizes:

This one-sided Half Rack is a well designed rack with the possibility of a large number of exercises such as bench press, squats, chins, pull-ups, standing rowing, etc. A robust rack designed for commercial gyms.

Safety barriers 500mm included.

Length: 116 cm

Width: 164 cm (with weight hangers)

Height: 230 cm Weight: 101 kg

Half Rack, Double Sided

Art.nr: 848D

Half Rack in double model is a great rack with the possibility of an extremely large number of exercises such as bench press, squats, chins, pull-ups, standing rowing, etc. Easy to place on the gym thanks to the compact design. Commercial quality for the professional gym.

Safety barriers 500mm included.

Length: 202,5 cm

Width: 164 cm (with weight hangers)

Height: 230 cm Weight: 180 kg

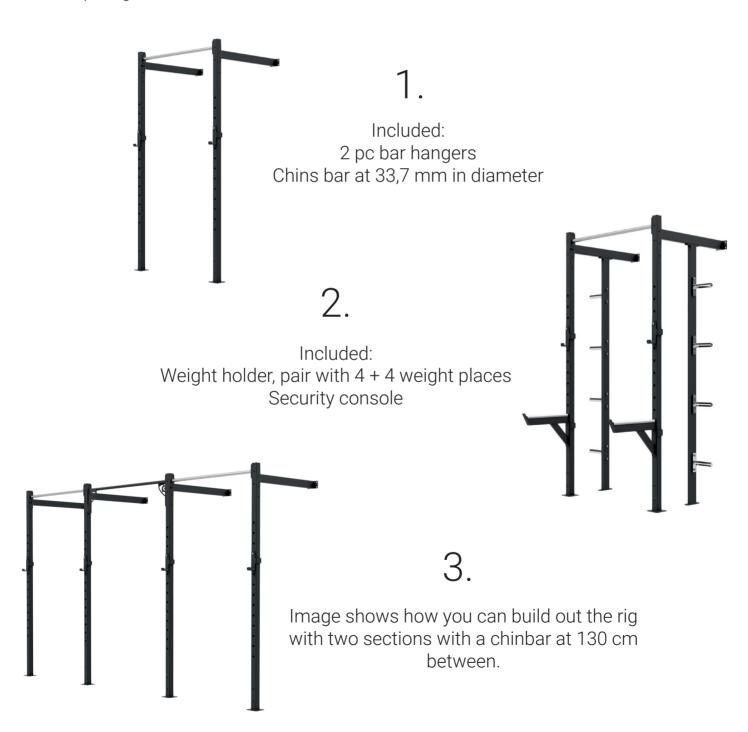

Wallmounted Rig

Art.nr: 601

This wallmounted Gymleco rig, or so-called training station for functional fitness, is a beautiful and stable rig for all gym environments. It is multifunctional with the possibility of many different training exercises such as squats and chins. The rig is designed and made by Gymleco and is therefore created with quality materials.

The rig is attached to the wall and to the floor for extra stability. It has a number of extensions that you can add on as well as various options for building the rig bigger. We can also offer outdoor treatment of the rig. This gives the rig extra surface protection so that it can withstand the environment outside. Two bar hangers are included with the rig so that you can simply buy a barbell with the station and start squating.

Rig with 6 liftings places

Art.nr: 602

Fantatic training station for all gyms! It has both low and high pillar positions so that you can integrate rope and ring stations as desired. The stand has a total of 11 pull-up stations, of which six are suitable squat stations. It can be equipped with accessories such as dip racks, safety equipment, weight racks, etc. Best thing is that you can build this rig however big you want and with whichever components you need. The possibilities are end-less!

Height: 271 - 346 cm (We can also create a lower one if necessary)

Width: 122/142/182 cm, you can choose between different options depending on the space.

Complete Crossbox Station

Art.nr: 610

Crossbox station provides versatile training for the whole body where you can do a lot of different exercises. The station can be built with complementary accessories completely according to your own conditions and wishes. You can for example build your station with additional parts such as a monkey bar, punching bag and squat suspension. This is a best seller thanks to the compact size which makes it easy to place in any gym regardless of surface.

Length: 345 cm Width: 245 cm Height: 236 cm

Monkey Bar Rig

Art.nr: 614

The purpose of a Monkey Bar Rig is to among other things, practice grip strength by getting from one side to the other hanging with your hands. But the stand also provides the opportunity for hanging a punching bag and chin railing, which provides more training opportunities in the gym. Many hang also a TRX on the rig.

Length: 410 cm Width: 170 cm Height: 229 cm

Farmers Walk

Art.nr: 666

Gymleco's Farmers Walk Handles are robust and truly durable with generous space between the equipment for user's legs. Upward-angled weight holders for longer durability of the equipment.

Weight: 15 kg / piece

Add weights with 50 mm hole diameter.

Conan Wheel Art.nr: 665

Also called the Conan Circle. This is a classic strongman equipment which is used by adding weight plates on it and carry around the weight in a circulating motion.

Used with international weight plates.

The lifting arm can be adjusted in height from 123 cm to 143 cm.

The distance from the center to the start of the lifting arm is 160cm (which gives about 10 meters of walkway per turn)

Prowler Sled

Art.nr: 685

Prowler Sled combines the training of strength and endurance of legs, waist and arms. Often used in functional fitness but also in the traditional gyms, preferably where there's space for a artifical grass track.

Length: 101 cm Width: 67 cm

Height: 103 cm (with the handles)

Weight: 50 kg

Fitness Yoke

Art.nr: 664

Gymleco's own Fitness Yoke with adjustable height. Beautiful, clean design made of strong material, making the piece timeless. A perfect gym equipment for heavy strongman training.

The diameter of the grip 60 mm

Highest position: 177cm Lowest position: 132cm

Length: 120 cm Width: 40 cm

Height: 108 - 164 cm

Weight: 50 kg

Art.nr. 896 Bumper Plate, Slam Ball Rack

Build your Gymleco rack according to your wishes and conditions at the gym

Here you have Gymleco's stylish and robust multi storage rack which has place for both weight plates, dumbbells, wall balls, slamballs as well as barbells, jumping ropes, resistance bands and more. With this multi storage you have endless possibilities!

You can adjust your 896 storage system completely to your needs. Build three shelves if you want to be able to fit a lot in a small surface. Increase the shelf in width if you want a lot of equipment and everything collected in one place. Mix different shelves to make sure that all your equipment has a place in the rack.

Bowl for Magnesium / Chalk

Art.nr: 692

A compact and smart designed standing bowl for storing chalk blocks or powder. This Gymleco Standing Bowl for chalk is perfect for commercial gyms and training boxes.

Push-up Bars

Art.nr: 621

These high-quality Gymleco Parallettes, or so-called Push-up Bars are used in calisthenics and help you get more power in exercises that strengthen the arms, shoulders and chest.

Length: 50 cm Height: 27 cm Width: 34 cm

Barbell Lifter / Bar Jack

Art.nr: 898

Gymleco's barbell lifter is a tool that makes it easy to change weights during heavy weight training. Just roll over the bar with weights on and lift it up a few cm to change weights.

Length: 126 cm Width: 32 cm Height: 118 cm Weight: 12 kg

Barbell Lift Mini

Art.nr: 899

Gymleco's barbell lift (mini) is a tool that makes it easy to change weights during heavy weight training. Just roll over the bar with weights on and lift it up a few cm to change weights.

Atlas Stones

Art.nr: 868

Atlas Stones are made of concrete shaped into a round ball. These are traditionally used in Strongman events but are now also popular on gyms that wants to offer something different.

Sizes from 50 kg to 110 kg (diameter 41,5 cm-48 cm)

Podium set for Atlas Stones

Art.nr: 867

Gymleco's Podium for Atlas Stones are an essential part of your Strongman equipment. The podiums are robust and made of the highest quality to make sure that you can lift as heavy and as much as you'd like.

The podium is available in sizes 150 cm, 135 cm and 120 cm, but can also be ordered in other sizes.

Punching Bag

Art.nr: N214

Designed to hold hard boxing training at the gym. The bag is 130 cm long which makes it possible for any body length to train on. Mounted either from the ceiling or hanging from a rig.

Width: 40 cm Length: 130 cm Weight: 40 kg

Standing Punching Bag

Art.nr: N224

This standing punching bag is in a durable PVC material with a filling in foam plastic. It is made for lighter punch training. The base is filled with about 75 kg of sand for stability. Sand is not included in delivery.

Diameter: 41 / 60 cm Height: 178 cm

Wooden Wall Bars with Chins

Art.nr: 775W

Wooden Wall Bars is a great piece of gym equipment. You may have seen it before in gyms or schools where they're used for coordination, stretch or strength. An ideal multi-functional gym equipment for not only commercial gyms and homegyms but also sports medicine clinics, hospitals and schools. The Chins rack in our Wall Bar can be changed in height.

Length: 53 cm Width: 80 cm Height: 220 cm

Strongman Sand Bags, XS - XL

Art.nr: 869

Gymleco's Strongman Sandbag is an excellent training equipment for both strongman, functional fitness and other free weight training. A good option for atlas stones or slamballs. The sandbags are great for training exercises such as front squats and sandbag carries. Sand is not included.

Available in sizes 30 kg, 45 kg, 65 kg, 85 kg, 115 kg

Peg Board Art.nr: 611

Gymleco's Peg Board is designed and manufactured with the absolute finest quality. It has a total of 35 holes and is made of strong wooden material. Training in a pegboard is extremely heavy and good for your grip strength, as you hang your hands on two sticks and move

forward, up and down with them.

Two sticks of oak are included.

Length: 242 cm Height: 30 cm
