

# Millennium TBI Network

Rebuilding Hope one day at a time

Thank you for your interest in the Millennium Health Centers, Inc. and our leading-edge technology for traumatic and non-traumatic assessment and treatment in military and civilian communities.

Since the recent run of media events acknowledging our program, we have received many requests for training, access to our laboratory panels and treatment protocols. Without the understanding of the paradigm shifts that we have applied in the interpretation of our proprietary lab panels and the simplicity of treatment, the patient out-comes would never change. Therefore, we offer a number of avenues for all healthcare providers to obtain the information needed to be part of the program:

1. The Introductory training program on TBI: [www.agemed.org](http://www.agemed.org) is my host for the program.
2. Purchase the book: **Traumatic Brain Injury – a Clinical Approach to diagnosis and treatment** and the accompanying 3-Day lecture series that provides a day on basic hormone principles and 2-days on all things TBI, at [www.millenniumhealthstore.com](http://www.millenniumhealthstore.com) use check out code **TBIBFD** for a discount. Recommended reading prior to attending any live or virtual TBI training programs.

Additionally, we have written an educational software program called the Millennium Office Assistant (MOA). It is an Expert-AI System to assist healthcare providers in standardize their interpretation and treatment of not only TBI patients but for hormone Wellness, Age Management, Anti-Aging, HRT, and TRT programs. It can take one to two years to become proficient in the interpretation and application of laboratory results or the program does it for you in 15 minutes. See information at [www.TBIHelpNow.org](http://www.TBIHelpNow.org).

Each participant can decide to take the TBI class, read the book and watch the lecture series, and then take the Certification Exam which will provide you access to be listed on our website [www.TBIHelpNow.org](http://www.TBIHelpNow.org) under THE TEAM. With over 1000 requests for our services coming from 50 states and 34 countries within 3 weeks of our last Joe Rogan podcast #1589, we need more trained healthcare providers to offer our protocols.

All the best
