PLUMBING & ELECTRICAL WORKS

CORPORATE
PROFILE

ABOUT US

From humble beginnings, Dimpof Plumbing and Electrical (DMP) has grown to a sizable company, employing 2 certified plumbers, 4 assistant plumbers and 2 fully certified electricians and 2 assistant electricians, able to offer a same day plumbing and electrical maintenance solution to all its clients. Despite our steady growth, we have remained a business adhering to old fashioned family values and integrity.

Throughout the years we have retained customer satisfaction as our top priority. By innovating our service provision, we ensure that we keep producing a top quality result at competitive rates. We have a proud history of providing customers with a one stop solution, 24 hours a day.

Why not put us to the test? You will be met with exemplary customer service and our skilled and friendly professionals will arrive on time, fully stocked and ready to solve whatever plumbing, electrical, solar energy or water and sanitation solution you may require.

WE PROVIDE A QUALITY, PROFESSIONAL AND RELIABLE SERVICE IN:

Plumbing:

New installations, repair and maintenance

Electrical:

New installations, repair and maintenance

Water and Sanitation:

New installations, repair and maintenance

Our response times are swift and we do not leave site until the work is done.

Our company prides itself in problem solving and the correction of defective work. What others may have ruined we fix and restore to national standards.

Brand Promise

We will leave you smiling and satisfied with our work.

Our Values

- Honesty
- Reliability
- Excellence
- Integrity
- Safety
- Quality
- Customer centricity

Our Vision and Mission

To be the leading brand name in the crowded world of plumbing and electrical works and to provide an expert, quality service at affordable rates.

Our passion is people and we thrive and aim to build lasting business relationships.

DMP OBJECTIVES

- Create job opportunities and skills training for the people who live in the areas we operate in.
- Contribute to the growth and well being of the sector by offering quality services.
- Grow the company to handle large infrastructure projects.

DMP STRATEGY

Our short term objective is to obtain more contract work so as to maximize our present resources. Our long term plan is to acquire long term maintenance contracts from large industries, corporates and the public sector, in order to keep our people in work and remain sustainable as a business. We believe in open and honest working partnerships with our clients, and are committed to understanding the specific needs of each of our clients, to ensure excellent service delivery at all times.
