

Aqua MAX Liners

FROM MERLIN INDUSTRIES INC.

For years, pool owners have been looking for a better pool liner, only to be told that all they can do is get a thicker liner. Thicker liners are still subject to the same ultraviolet, chemical and heat damage as standard liners.

Aqua-Max liners are specifically formulated of a high molecular weight polymer to provide greater ultraviolet resistance and far greater resistance to today's pool chemical systems and chemical misuse. Aqua-Max vinyl also contains over twice as much anti-fungal and anti-bacterial protection than standard liners.

Aqua-Max Liners
Only from Merlin Industries!

50% more top coat to help prevent scuffs & stains.

25% better resistance to chlorine bleaching.

25% longer life expectancy than standard liners.

20% more UV resistance for longer lasting color.
