

Whittier Park Exterior Construction Guidelines

These guidelines apply to all exterior construction. Including, but not limited to, replacement and/or repair of the following:

- Roof
- Fence
- Windows
- Gutters
- Exterior trim
- Decks

Basically, any exterior work that will generate noise and debris.

Falls Church City's noise ordinance prohibits construction during the following times:

Monday - Friday: **9pm - 7am**

Saturday - Sunday: **9pm - 9am**

Work should not start before 7am on weekdays and 9am on weekends.

Contractors should:

- Make sure the construction area is sufficiently marked with cones or tape (sidewalks or alley area) to keep residents from entering the area during construction.
- Minimize the amount of falling debris by using either trash chutes or tarps to protect landscaping.
- Remove all construction debris when work is completed.
- If possible, notify the HOA in advance so nearby residents are aware of the work and can plan their day accordingly.
