*\$ 69 per month, with NO  
installation or training fee*

Accounting can be complex, but it doesn't have to be.

## Accounting Link makes it easy

With just a few clicks, the day's activity is verified and transferred to your accounting software. The setup is flexible and enables you to see as much or as little detail as you like in your accounting software. Do your books at the shop or at a remote office and be confident your financial information is current and accurate.

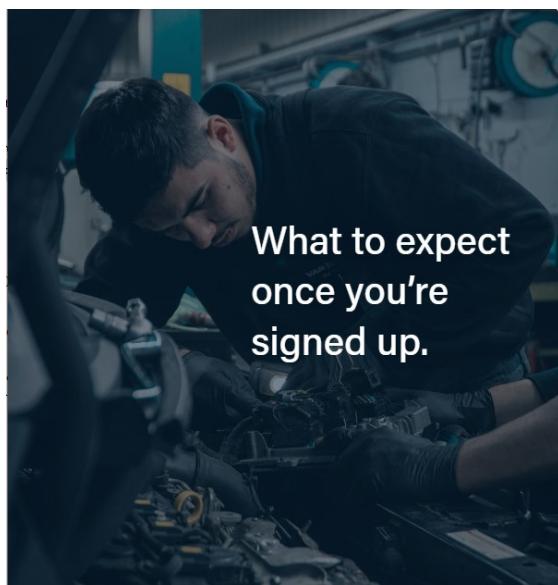

We will help get everything set up and never fear, our friendly staff is only one call, chat or email away to help you with any questions that may arise.

### Order

Your shop management system places an order via our online order form, sharing your shop's details. An email confirmation is sent to your shop management system confirming we have processed the order.

### Schedule

We will reach out to you and coordinate a specific time that works for you to customize the integration to your specific needs.

### Configuration

One of our experts will help configure Accounting Link to fit into your current processes. With flexible configuration options, we can meet complex requirements and even offer advice on best practices to improve your process.

### Support

Our team is available via phone, email or chat to provide additional support whenever needed. We pride ourselves on delivering exceptional service with our customer's success in mind.
