UX Designer

I leverage my background in anthropology to understand people of different backgrounds and conduct design research. I digest my findings into elegant, sleek, and striking solutions that become intuitive for the end user.

EXPERIENCE

Subwire

UX Designer

New York City, NY

May 2023 - present

Conducted in-depth research, informing interface improvements based on valuable insights about Subwire's audience. Created surveys and interviews for end users of the application. Based on this feedback, designed and refined wireframes and prototypes, incorporating user-centered design principles and industry best practices. Developed a highly intuitive and visually appealing user interface, precisely catering to Subwire's audience's needs and preferences, through thorough research and iterative design.
