Rebreed fee - $350 (make checks payable to Lori Lester)

Method of Breeding: On Farm_____ Shipped _____Frozen Semen_____

Mare Status: Maiden_____ Barren_____ In Foal_____Date foaled _____

Last Breeding Date _____ bred to (stallion)_____

TERMS AND CONDITIONS OF BREEDING CONTRACT

Please sign below, enclose booking/breeding fee, a copy of mare's registration papers or lease agreement and return to Meredith C. Pierce-Brewer, DVM at the address above.

Mare Owner_____This agreement is made between Lori Lester (hereinafter referred to as the stallion owner), and the owner of the mare described above and is subject to the following terms and conditions.

1. A $350 non-refundable booking fee is due and payable upon execution of this agreement. Booking fee is included in the breeding fee. The balance of the breeding fee is due before semen will be shipped or a spot in the breeding roster will be guaranteed when there is limited frozen semen available.

2. Breeders certificate will be issued when all fees are paid in full and stallion owner is notified of a viable pregnancy. Only one breeders certificate will be issued per paid breeding fee. For those wishing to complete registration online the certificate will be released when a request is received from AQHA.

3. This is a frozen semen only contract for the 2027 breeding season. This contract is **limited to three (3) doses** of frozen semen only. If a pregnancy is not obtained after using the first two doses of frozen semen the attending veterinarian must contact Oregon Performance Equinetics to discuss the breeding methods and/or mare being used for the breeding before the final dose will be shipped. Should the mare fail to become pregnant after using the three doses allocated the mare owner may try again at a rate of **$500** per additional dose plus any shipping fees.

4. In the event the above mare fails to produce a live foal, after a confirmed pregnancy, from the breeding privilege granted herein, the mare owner may rebreed the mare (or a substitute mare, mutually agreed upon by mare and stallion owners) during the current or following breeding season with a $350 re-breed fee. A live foal is defined as a foal that stands and nurses, unassisted in the first 24 hours. If the foal is born dead, or dies within 24 hours, this guarantee applies only if the mare owner (A) notifies the stallion owner within 72 hours after the time the mare did not produce a live foal, and (B) within 10 days after the mare owners notice, the mare owner provides the stallion owner/agent with a statement from a licensed veterinarian substantiating the failure of the mare to produce a live foal. The breeding fee will not be refunded.

5. If the mare owner fails to contact the stallion owner for a rebreed the year immediately following, then any and all fees paid shall be forfeited, the right to a rebreed is canceled and this contract is thereby terminated.

6. The mare owner may not assign or re-sell this breeding contract or substitute any other mare under this agreement without the prior written consent of the stallion owner. Any attempted assignment without prior consent of stallion owner will, at the option of stallion owner, terminate this agreement and release stallion owner from all obligations hereunder. Any and all fees will be kept by the stallion owner.

7. It is understood that if the above stallion dies or becomes unfit for service, that **frozen** semen is available but limited. This contract shall become null and void only if frozen semen is no longer available and semen was never ordered. The breeding fee less the booking fee shall be refunded to the mare owner in the event the mare was never bred and semen was never ordered.

8. Embryo transfers: Mare owner agrees to notify stallion owner if this is to be an embryo transfer breeding at the time this contract is executed. In the event multiple viable embryos are produced from a **single flush,** the mare owner agrees to pay an additional breeding fee of **$800** for each additional pregnancy that is confirmed at 90 days gestation. A live foal guarantee will be granted on all viable embryos that are confirmed at or beyond 90 days gestation. If no veterinary records can substantiate a viable pregnancy at or beyond 90 days there will be no live foal guarantee granted.

9. By signing this contract, the mare owner certifies that he/she is the sole owner of the above mentioned mare, or has authority to enter into this contract on behalf of the owner. If the mare is a leased mare then an AQHA lease agreement will be provided.

10. A photocopy of mare's registration papers, both front and back, must be furnished with this contract. If the mare is a lease then a copy of the lease agreement will be provided.

Shipped Semen Addendum: DosEquiis

Please note: Due to the limited quantity of frozen semen and the heavy training and competition schedule of DosEquiis, the first shipment will be two breeding doses. No additional doses will be shipped until the attending veterinarian contacts Dr. Meredith Pierce at Oregon Performance Equinetics to discuss the need for additional doses. **Any unused doses must be returned to Oregon Performance Equinetics or a breeding certificate will not be released.**

Shipping address for semen delivery:

Clinic Name: _____

Address: _____

City: _____ State: _____ Zip _____

Attending veterinarian_____ Phone #_____

1. Mare owner agrees that only the mare designated on this contract will be inseminated with the shipped semen. Any attempt to breed more than one mare with a shipment will void this contract and no refunds will be provided.

2. Mare owner agrees to pay the following charges pertinent to the transport of frozen semen.

Normal shipping fees per shipment- Contact Select Breeders at Weems & Stephens at (940) 387-1177 for pricing

Canadian shipments - Call for pricing and availability.

Shipment includes a shipping container, to be returned within 5 business days, and shipping fees. There will be no credit given on returned shipping boxes. A fee will be charged for non return of the shipping container.

3. **Frozen semen can be ordered by contacting Select Breeders at (940) 387-1177.** Semen requests must be made before 8 AM PST to ensure shipping the same day can be made. It is preferred to request semen in advance though to allow for potential shipping delays that can occur. **In the event Select Breeders is unable to fulfill a shipment contact Dr. Meredith Pierce to have semen shipped from an alternate source.**

4. Mare owner agrees to have the mare checked via ultrasound to confirm ovulation and that there are no post breeding reactions. Mare owner also agrees to have the mare ultrasounded 14-17 days after the date of insemination and notify Meredith C. Pierce-Brewer, DVM of pregnancy status. Failure to do so will result in the mare not being included on the stallion breeding report.

5. Mare owner agrees to vaccinate the mare with the appropriate vaccines recommended by their veterinarian. If the mare owner fails to vaccinate the mare during pregnancy and she aborts due to a preventable disease, proof of vaccine must be provided before a rebreed the following season will be issued.
