

# WHAT IS CATARACT

**NORMAL LENS**

**LENS WITH CATARACT**

**CATARACT** occurs when the lens in eye become **CLOUDY**.  
As **CATARACT** occurs, it interferes with the transmission of light into eye and **affects vision**.

## SYMPTOMS OF CATARACT

1. Blurring or dimness of vision
2. Feeling of a film over the eyes
3. Sensitivity to light and glare
4. Double vision
5. Change in colour of lens

## SOLUTION FOR CATARACT PROBLEM

Neither medicines nor eye glass are permanent cure for cataract.

**SURGERY** is the only solution for **CATARACT**.

For more information please meet our **DOCTORS** at **EYE CARE HYDERABAD**.
