### OPENING STATEMENTS BY MR. STAVER

10:19:01AM 1 THE COURT: Mm-hmm.  
10:19:02AM 2 MR. STAVER: -- and there's now three cases: there's  
10:19:04AM 3 this case, there are two outstanding motions in this case, the  
10:19:08AM 4 motion on preliminary injunction for the rest of the  
10:19:11AM 5 plaintiffs, and then the class certification or conditional  
10:19:14AM 6 certification.

10:19:25AM 12 MR. STAVER: There's more all the time. In fact, as  
10:19:27AM 13 you know, seven judges have reviewed RFRA, and all of them have  
10:19:32AM 14 come to the same conclusion that Your Honor has come to. Three  
10:19:34AM 15 on the Fifth Circuit Court of Appeals and four other district  
10:19:37AM 16 court decisions, all of which have concluded that the  
10:19:40AM 17 Department of Defense and the various military branches are  
10:19:43AM 18 blatantly violating the Religious Freedom Restoration Act.  
10:19:47AM 19 Clearly, that is a serious issue. If there is a  
10:19:51AM 20 violation of an order, it's not a violation from our plaintiffs  
10:19:56AM 21 as it relates to "get the shot," it's a preceding violation of  
10:20:02AM 22 the federal Religious Freedom Restoration Act and even the  
10:20:05AM 23 First Amendment. That's where the violation actually begins,  
10:20:08AM 24 and it is rampant, and it is frankly abusive, and it is  
10:20:11AM 25 widespread, and we can address that more as we come to the

## BLUF:

- **FACT WITNESS** for Servicemembers Seeking Religious Accommodations.
- My opinions were based upon **INFORMATION** and **BELIEF**, experiences and observation of actual events paired with my understanding of evidence-based medicine, randomized controlled trials and firsthand experiences during the time frame in question.
- **GOAL: To establish the mRNA DoD “Countermeasures” were NOT SAFE, NOT EFFECTIVE, and my unit was COMBAT EFFECTIVE by all metrics and used LESSER INTRUSIVE METHODS to perform duties during Operation Lone Star.**

## OUTCOME:

- Fact and Expert witnesses were able to show that injections were **NOT SAFE nor EFFECTIVE** and that duties and appropriate readiness levels could be performed and achieved by **LESSER INTRUSIVE MEANS.**
- LTC Theresa Long was witness tampered the night before case, by her command at Fort Rucker.
- The arguments by Liberty Counsel (Matt Staver) resulted in a **PRELIMINARY INJUNCTION.**

## THE “SO WHAT”:

- The “**MEDICAL READINESS**” factors into Combat Effectiveness and National Security at the Strategic Level. The Readiness of a unit is evaluated by certain medical metrics depicted by:
  - **OVERALL READINESS LEVEL**
  - Profile Status
  - Hospitalization Numbers (Combat and DNBI)
  - Troop Requirements for Mission (Troop to Task)
  - Forecasting of Losses for Future Planning
  - “Special Staff” recommendations
  - Preventative Medicine Countermeasure

## CURRENT SITREP:

- DOD attempts to dismiss case.
- Preliminary injunction still in play, seeking permanent class certification.
- Seeking to rectify abuse. \*
- **Currently have asked magistrate to send a proposed final judgment to DoD.**

\* Seeking rectification of status, pay and allowances, lift promotion flags, allow for TDY's and PCS's, change of status post discharge, etc.
