## A Message from the Commandant *Lt Col Leslie H. ...*

It's a great pleasure to greet you at our annual group conference. We've been challenged this year, but we've overcome. We've discovered in ourselves things we've never done before. We contributed an amount of money for humanitarian relief, as you'll hear more about. Our communications program, our awards and promotions as well as the dedication leaves me awed at the service.

Our challenges continue for the future. The primary one is obviously the primary one. Things will begin to return to normal for it. Meanwhile, we need to continue to Excellence, Integrity, Volunteerism and Respect. We need to do this with the support of our contributing members who are all part of our community, state, and nation. We need to be and working to solve these

# Aerospace Education

Steve Weiss, CAP

Education Officer

Reviewing AE developments. Here is a brief summary of recent events. As always, feel free to contact me if you have any questions.

## Education - Nov 2020

Monthly & Group level AE POAs. That said, each Squadron has a FY AE plan of activities, especially to support any budget re-

viewed by Squadron Commanders on 15 Nov 2020. They are available on the website.

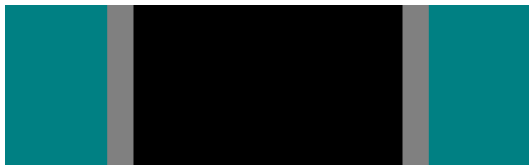

**Monthly Summaries** – These are stored on a shared Google AE Drive. This helps to compile the Annual AE Activity Report. Here is the link to the shared drive: <https://drive.google.com/drive/u/1/shared-drives>

**Specialty Rating** – Currently 48% of SMs have a Specialty Rating of “None” – Training & Development is the most common specialty rating.

Currently 57% of SMs have their Yeager, Category II. The goal is to have 75% of SMs have their Yeager, Category II.

**Outreach** – Reaching out to existing AEMs is a high priority.

**Recognition** – Recognition of Cadet/SM participation in AE Activities, having Multi-Unit AE events, and having Multi-Unit AE events.

It was certainly a strange year, but what we may have preferred in FY20, we still can see some great results.

Despite the lack of flying, we still racked up (Non-Distress FIND credited) and flew in the NER Exercise allowed for a successful mission for Isaias, which included Group 3 aircrew. We also qualify a few new aircrew members, and our Form 91 re-qualification in FY20 passed. We also had Fertile Keynote missions for our Air Guard. We found new ways to communicate with the Mission.

On the ground side, of course our dedication to ELT missions. When COVID hit, Group 3 our community was admirable. Our dedication with the PA Army National Guard, Air National Guard others to distributed needed food and supplies during of the pandemic.

Thanks to all of our volunteers for working tirelessly - of FY20. FY21 has already started work.

# Squadron 1008

**Maj Timothy**  
**Squadron**

Squadron 1008 had a normal year ending with an interesting visit to the West Point Museum. We switched to virtual meetings at the end of October. The squadron made the virtual meetings engaging with a visit to the International Space Station. The squadron enjoyed the virtual flying together in

Attendance at our virtual meetings was similar to normal in-person meetings. We only had 1 cadet promotion and 3 senior member promotions this year. One of our cadets was admitted to West Point and another was admitted to West Point. One member received the Unit Award for the 10<sup>th</sup> year in a row.

Members made and donated PPE for our first responders. We flew disaster relief missions in December, and performed other missions.

We were very happy to return to in-person meetings in November. Outdoor, socially distanced activities were popular. We are in the process of planning for the future and look forward to getting back to normal as soon as possible.

Officer provided monthly briefings. The Annual Safety Day presentation was provided as the Mission Safety Officer's report of the COVID 19 Point of Disruptive Equipment fabrication for Activation Missions. Also, during the year, the Officer had the opportunity to attend a Safety Conference at the College.

The Group during the year, both on and off duty, put forth in an effort to ensure a safe future.

Over the year, numerous challenges for Safety Officer were met. Increased Risk Management Assessments in consonance with CAP's new, revised regulations.

The new CAP was reviewed and updated. New rewritten safety regulations. As a result, numerous opportunities will be conducted by Safety Officers with implementing and assisting them with Specialty

# Squadron 102

**Maj Swee W**

**Squadron**

Philadelphia Composite Squadron 102 is a vibrant and active Squadron at Philadelphia Airport. It comprises of a core of enthusiastic members from a diverse background and culture. Many members have healthcare vocations, professional skills and a wealth of life experiences.

While COVID-19 hit us hard in 2020, compelling us to adapt, we continued to pursue excellence in achieving our goals as a CAP Squadron.

Prior to meeting restrictions setting in, we logged many hours of training activities to receive the Aerospace Education Award. We also stood up an Honor Guard and demonstrated leadership and initiative. Our members completed Emergency Services (ES) training to be ready for any eventuality. Even after turning fully virtual, our core group continues to participate actively in online meetings, courses and activities. We see our members participating in the COVID-19 relief efforts and face mask making. We explored new methods of training through the virtual environment. We remained resilient during these unusual times.

As we enter 2021, we are keeping our spirits high and looking forward to more exciting times. We will pursue our AEX award and continue our mission. We will continue to train our Honor Guard and as a result, we hope to see more participation in ES training. We will continue to achieve more than ever, as we strengthen our Squadron.
