

CONSTITUTIONAL AMENDMENT FULL TEXT

Ballot Title: Amendment to Limit Government Interference with Abortion

Ballot Summary: No law shall prohibit, penalize, delay, or restrict abortion before viability or when necessary to protect the patient's health, as determined by the patient's healthcare provider. This amendment does not change the Legislature's constitutional authority to require notification to a parent or guardian before a minor has an abortion.

Article and Section Being Created or Amended: Creates - Article 1, New Section

Full Text of the Proposed Amendment: New Section, Amendment to Limit Government Interference with Abortion

Limiting government interference with abortion. Except as provided in Article X, Section 22, Do law shall prohibit, penalize, delay, or restrict abortion before viability or when necessary to protect the patient's health, as determined by the patient's healthcare provider.

1. **Gone** are **PARENTAL CONSENT** laws. With the help of a leftist teacher, radical school counselor, or even pedophile coach, your daughter can enter and start an abortion in a city, hours from your home, by simply by informing you of the abortion after he delivered her to the facility.
2. **Gone** are any **Waiting Periods** to help women reconsider panicked decisions. If her boyfriend freaks out and breaks up with her. She could get an abortion within 3 hours. The baby is gone before he comes to his senses and begs for forgiveness.
Gone are **Facilities' Health Regulations**. Already, abortion facilities are not regulated like surgical centers. Now even those bare minimum standards are destroyed. The ambulatory surgical center where you have a toenail removed is already more regulated than the abortion building. Under this amendment, Taco Bell will be more inspected and regulated than your abortionist.
Gone are **Medical Informed Consent Laws**. You will be better informed about a toenail removal than potential side effects abortion, like infection, infertility, and suicide ideation.
3. **Promotes Painful, Late-term Abortions to Protect Mental, Emotional, Spiritual, Relational, or Physical Health**. Will this baby cause you stress? Do you have backaches, high blood pressure, afraid of labor? Then you too can have an abortion before birth!
4. **Abortionist, OB/GYN, Nurse Practitioner, Nurse, Phlebotomist, Psychiatrist, Psychologist, Physical Therapist, Dentist, Dental Hygienist – All are "Healthcare Providers"**. All can certify a 3rd trimester abortion is necessary to protect the patient's "health" under this Constitutional Amendment.

5. Makes Florida an Abortion Tourism Destination! Let's hope the housekeepers removed all the bloody towels and bedding before your family checks in.
