Executive Director Andrew Shirvell today issued the following statement:

“Florida Voice for the Unborn sincerely thanks Florida’s pro-life governor, Ron DeSantis, for signing into law today life-saving legislation that requires parental consent prior to a minor child obtaining an abortion in the state of Florida – and enhances protections for babies born alive after failed abortions. The legislative sponsors, Republican state Senator Kelli Stargel (District 22 – Lake and Polk Counties) and state Representative Erin Grall (District 54 – Indian River and St. Lucie Counties), are true pro-life champions and their leadership on this important issue is highly commendable.”

Shirvell continued, “The fact is, polls have consistently demonstrated that there is widespread bipartisan support among the citizens of Florida for the involvement of parents in their minor child’s life-altering decisions. Clearly, parents are the ones who need to be involved – not the bloody merchants of death at Planned Parenthood! The legislation signed into law today will allow parents to help their minor daughter choose life when faced with an unexpected pregnancy.”

Shirvell concluded, “Florida Voice for the Unborn fully expects radical pro-abortion groups to immediately challenge in court Florida’s new parental-consent-prior-to-an-abortion law, which goes into effect on July 1st. Florida Voice for the Unborn also fully expects the courts to ultimately uphold Florida’s new pro-life law.”
