

# No-Sew Fleece Blanket

Project Linus fleece blankets should be created with one layer of fleece, not two.

## Materials Needed

- ♥ 1½ yards fleece, or choose your own custom size (fleece is usually 50-60" wide)
- ♥ Ruler
- ♥ Fabric scissors
- ♥ Rotary cutter

## Instructions

This blanket is simply made in 5 easy steps.

### Step 1

Before you begin, trim off selvage edges and square uneven edges as needed. (Figure 1)

### Step 2

Cut a 4" square from each corner of fleece. (Figure 2)

### Step 3

Cut 4" x 1" wide fringe around blanket. (Figure 3)

*Tip: Cut a 4" piece of fabric or batting to use as your corner template. (Figure 2) It won't slip, and it will make cutting easier. Using your ruler and rotary cutter cut vertically and horizontally—(arrows) ALMOST to the corner (red circle) but NOT QUITE. Then use your scissors to finish the corner cut. This will give you a crisp, clean cut and you won't cut into the neighboring fringe. NOTE: Fringe may be cut in ½" or 1" increments.*

## Step 4

Using a seam ripper, make a tiny slit in the top of each piece of fringe.

## Step 5

Feed the end of the fringe through the back side of the slit you just cut and pull through to create a neat and secure fringed edge.
