

Beauty Pearl—Hormonal and Skin Food...

- Beauty Pearl is known to help balance hormonal mood swings, puberty, teen and mid-life challenges, and acne and skin-related problems.
 - ***Beauty Pearl*** is named for both its purpose and its appearance. Its one-of-a-kind formulation is designed to nourish the skin from within so you can stay young, look young, and feel young.
 - It contains very assimilable calcium and is terrific for repairing and having strong bones.
-
- As with all Sunrider formulations, each ingredient in the ***Beauty Pearl Supplement*** is chosen for its unique beneficial qualities; however, the combined combination makes it and each Sunrider product exclusive.
 - **The exotic food herbs, extracts, and unique ingredients are:**
 - ***Honey*** is a natural sweetener that has been used in skin care and personal care products for centuries in both Eastern and Western cultures.
 - ***Korean Ginseng (Korean White ginseng and Panax Ginseng)*** is a regenerative food, especially for the hormonal system and reproductive organs. It is also very nourishing for the mind and nervous system. Chinese people eat it for energy, strength, and endurance. For about 5,000 years, it has been used as a qi (vital essence) tonic in Chinese medicine. Panax Ginseng is the most powerful of the ginsengs.
 - It strengthens the heart's actions, lowers blood sugar, improves digestion, lowers blood cholesterol, increases the good kind of cholesterol (HDL), inhibits allergies, and improves concentration, memory, and work efficiency.
 - It helps improve your mental and physical well-being and strengthens your resistance to stress.
 - This ginseng is often the choice for older folks (over 45). It is effective at improving memory and learning due to its neuromodulating action.
 - Panax also helps prevent clotting, reducing the risk of heart attack, stroke, and many circulatory problems, such as varicose veins.
 - It helps regulate metabolic function and protects the metabolism against various toxins.
 - In other words, it helps the body “adapt” to stress; hence, the label “adaptogen.”
 - Sunrider only uses pure, unadulterated root powder. This is rare in the market, as most companies cut their herb formulas with rice powder since the roots are rare and expensive, selling for thousands of dollars apiece. After 100 years of refinement of cultivation practices and seed selection, good quality cultivated roots are produced more cost-effectively but still expensive.

- **Royal Jelly Extract** is the food of the queen bee that prolongs her life 30x that of the other bees.
 - Royal jelly is considered perhaps the most complete food;
 - proven to have healing and regenerative qualities.
 - 18 amino acids (protein), pantothenic acid, B vitamins, and other minerals benefit the skin.
 - Used in cosmetics, royal jelly extract is touted as a potent stimulator of the skin.
- **Chrysanthemum Flower** is very calming, anti-infection, and anti-inflammatory.
 - It is also attributed to the ability to help soothe skin while having cell-nourishing properties.

Enjoy: For attractive, healthy, new skin, strong bones, and significant emotional support, chew or swallow 1-2 **Beauty Pearls daily**.

Ingredients: Honey, Ginseng, Chrysanthemum Flower, Royal Jelly Extract.

“My husband said never run out of Beauty Pearl for our daughter...” Michelle
