

## ***Bella—The Perfect Formula for Women Over 40!***

***"Bella" means beautiful in Latin. It is designed to highlight women's inner beauty while enhancing their outer beauty, particularly for those over 40.***

- With **Bella**, women over 40 don't have to worry about the effects of having to go through menopause or its aftermath.
- You can keep a gentle, loving disposition and be a strong, contemporary woman simultaneously!
- With Bella, you can look young and beautiful with soft, smooth skin.
- **Bella** nourishes a younger feeling and looking body; it can help support possible weight loss from menopausal areas.
- Dr. Chen's exclusive formula for women is super concentrated, made with natural herbal ingredients, and does not contain added hormones.
- Recent studies verified its unique array of isoflavonoids, such as puerarin, daidzein, and genistein.
- Bella contains herbs that support the body's natural processes. Pueraria root, for example, is one of the earliest and most important herbs used in Chinese medicine.
- **Bella** especially nourishes the endocrine and immune systems. Since Bella nourishes explicitly the liver and its functions, ladies should begin **Bella** with one capsule a day.
- With Dr. Chen's new ability to concentrate and enhance food formulas, the **Bella** formula, like the **Veros** formula for men, is 30 times more concentrated in its nourishing benefits. Therefore, one to two capsules daily are usually enough to make a big difference in enjoying your life like a young woman.
- Ideally, for maximum results, **Bella** should be consumed along with the Sunrider Basics and a "healthy" diet. **Bella** can help ladies stay happy and confident throughout their lives!

**Proprietary Blend:** Pueraria root; Barren wort leaf; Marsh parsley leaf; White cornel fruit; Red clover; Chinese Ginseng root; Dong Quai; Leek seed; Mongoliavine fruit; Boschniakia herb; Cnidium seed.

***"My husband and I seldom "spat" anymore since I'm eating Bella...Love how I feel...no menopause symptoms for me!" Donna***
