Why Do We Eat Sunrider Foods?

How it it Different in the Marketplace?

Video

So, Who is Sunrider International?

!

The Original Experts in Herbal Wellness + Natural Beauty
Blending thousands of years of ancient, Eastern, herbal WISDOM
with
Cutting-edge WESTERN TECHNOLOGY
42 year of Excellence in over 50 countries

Video

"The Philosophy of Regeneration"

BLUEPRINT OF ALL SR PRODUCTS

If we give our bodies

- ENOUGH
- Of the RIGHT KINDS
- Of WHOLE LIVE FOODS

The body can gain and maintain EXCELLENT HEALTH

Video

Our Reason for Sunrider: To Live LONG & Live WELL

To reach that goal... *Our Bodies Must Be REGENERATING*

Did you know:

Billions of cells die daily; cells reproduce constantly. You will have new:

- Skin in 5 weeks
 - Skeleton in 3 months
 - Liver in 2 months
 - Lining of stomach/intestines in 4-5 days?
 - In one year, you will replace approximately 98% of your body. It takes about two years to regenerate the colon, tendons, and ligaments.
-
- Regeneration means: Restoring new cells to their highest potential of health
 - Degeneration means: weakening of new cells, creating a downward spiral

We are either Regenerating or Degenerating

Video

REGENERATING– Next Cell getting stronger

DEGENERATING - Next cell is weaker

Video

*The Question is: Are you Regenerating?
Going up the ladder of health?*

There are 4 Ways People Try to Regenerate:

Typically, there are 4 WAYS PEOPLE
TRY TO REGENERATE!

DRUGS

- Designed to control
- Chemicals or poisonous/medicinal herbs
- Always with potential side-effects
- **Never regenerates**

MEDICINALS

- Designed as a substitute for a body weakness – stimulates the body to act
- These are drugs or medicinal herbs
- They weaken the body even more over time
- **Never regenerates**

ISOLATES

- Often taken to meet a deficiency
- Are vitamins, minerals, oils, proteins,
- Are taken from whole foods (ex. Vit C from an orange is now chemical)
- Seldom meets the deficiency
- Isolates upset the body's delicate balance & body works hard to eliminate
- **Never regenerates**

WHOLE FOODS

- All 5 parts of the nutritional structure are in tact; Proteins(amino acids); Fats(fatty acids), Carbohydrates(glucose), Vitamins & Minerals
- They are plant foods or herbal foods
- **This is *Food* that the body recognizes & needs to Regenerate – for STRONGER NEW CELLS!**

video

To Regenerate We Need Whole Food – fueled with its life force!

That gives us internal energy to Regenerate

Video

*Do we get enough **INTERNAL ENERGY**
from the food we eat?*

ENOUGH LIVE FUEL?

video

HOW DOES THE BODY USE THE INTERNAL ENERGY FROM THE FOOD WE EAT?

WHAT ARE THE PRIORITIES?

video

THE AVERAGE MEAL: Supplies ONLY 57% of the Internal Energy Needed For Its Top 4 Priorities

video

This is WHY We Eat Sunrider's Whole - LIVE Foods!

Sunrider Fills Up the Missing Gaps!

video
