Message from Dr. Chen regarding Calli and Fortune Delight

“Every food has a good side and bad side. One of them is camellia sinesis, which has been consumed

by Asians for thousands of years. It has tea catechins (good) and caffeine and tannic acid (bad). Nearly all teas contain ground up, unclean, fumigated, and/or irradiated tea leaves and herbs. Sunrider's herbal beverages are completely different and a true art. We hand and machine clean the herbs to get rid of insects, dirt, rocks, and more things that would ruin your appetite. It's a time-consuming process. Then, we extract and concentrate the beneficial nutrients, minimizing the negative ingredients like caffeine and tannic acid. Finally, we spray-dry the concentrated extracts onto the concentrated tea catechins. The result is light years ahead of typical teas. Fortune Delight® and Calli® are nutrient-rich, enhanced herbal

beverages.”

Simply Switch Beverages!

Calli...Super Gourmet Beverage ***Not an ordinary Tea!***

***Enjoy the benefits of Green Tea
without the negatives!***

Many Benefits of Calli:

- o Mental Clarity, Calm Energy, Sound Sleep, Increased Health & Vitality
- o A great alternative for caffeine-filled drinks, such as colas, teas, and coffee that steal your true energy, your health and your dollars
- o Greater benefits than Green Tea and Coffee without the negatives of caffeine and tannic acids
- o No caffeine withdrawals switching to *Calli*

Calli is a delicious Whole Food beverage

- o *Calli* is not just a tea, but a *whole food* beverage concentrated from several pounds of 4 exotic herbs down to one pound of herbal nectar. This herbal nectar is then spray dried onto Camellia carrier leaves (Green Tea made from Camellia) giving us the benefits without the negatives.
- o Research shows Green Tea benefits: good prevention for cancer (may help expedite it out of the body), excellent for heart challenges, most powerful source of antioxidants found, but unlike Green and Black Tea, *Calli* has no caffeine effect.
- o Based upon 5000 years of research and wisdom in proper combining, rather than decaffeinating (removing part of the plant), Dr. Chen *adds* other herbs milligram by milligram to decrease the tannic acid and caffeine effects while increasing the antioxidants. This time-taking procedure ensures that *Calli* has very ***little or no caffeine effect. This is one of Sunrider's amazing proprietary secrets.***

Calli is increases the benefits of your water

- o *Calli* is acidic, but the effect in the body (like lemons) is alkalizing. In an alkaline environment, impurities are less likely to be absorbed or retained. (Note: Coffee and black tea (by itself) are both “acidic” but do not alkalize the body.)

Calli enhances the removal of toxins, wastes, & digestion's by-products

- o Because of the whole plant nutrients, flavonoids, catechins, & high source of antioxidants, this ancient formula nourishes the cleansing organs: skin, lungs, kidneys, colon, and liver increasing their ability to naturally, gently, cleanse the blood, cells and tissue resulting in the many benefits of *Calli* vs. the stress and challenges of a cleanse or the stimulation of caffeine.

Through optimal nourishment & alkaline pH, body is enabled to cleanse itself of

- unwanted fat and cholesterol
- accumulation of toxic wastes
- fermentation and putrefaction from negative diet
- drinking water impurities
- pesticides, chemicals, & preservatives
- heavy metals (i.e. aluminum, mercury)
- nicotine, caffeine & drug residues
- radiation & chemotherapy residue
- uric acid & unwanted joint deposits
- bacteria & impurities from kidneys, liver, lymph, lungs, skin & colo

Ingredients: Camellia Leaf, Perilla Leaf, Mori Bark Extract, Alisma Root Extract, Imperate Root.

How to Enjoy: Simply turn your coffee maker into a “Calli Maker”

Put 1 *Calli* bag in the top, pour in your water – let it steep thru for 12 perfect coffee cups of perfect Calli. So simple! Love it first thing in the morning and all thru the day. Enjoy hot or cold. The more you drink, the better you feel!

Or simply steep 1 tea bag in 4-8 cups of hot (not boiling) water for approximately 5 minutes. Remove bag. Do not reuse (pick up weaknesses) Never Microwave!

The Cost: You can drink *Calli* for as little \$.12.5 cents a cup, a \$1.00 a day. How’s that for cost effective living? Prevention at it’s best! You’ll never want to be without your Calli!

Calli is available in 10 pks or 60 pks (save 10%) *Regular, Mint, or Cinnamon* – all delicious!

Helpful Hints:

- o If you are very toxic, to lessen possible cleansing effects, you may choose to prepare the *Calli* with up to 1 bag/gallon of water for a short period of time.
- o When sick, or the first sign of illness, or for pulling out heavy metals: Make your *Calli* 1 bag/1 cup of water – *Calli* is stronger than chelation therapy!
- o The purer the water, the fewer residues there will be on top. (Dr. Chen has said that *Calli* will carry that residue out of the body.)
- o When trying to stop smoking or drinking alcohol, or using drugs, switching beverages to *Calli* will greatly assist you in reaching your goals.
- o Drink freely within 24 hours or refrigerate for longer use (up to 2 days).
- o Enjoy the delicious burst of healthy sweet with a drop or two or short squirt of *SunnyDew* – Enjoy to your taste. Delicious hot or cold mixed with *Fortune Delight* (called *CalliDelight*).
- o *Calli* is great with meals (whole foods) and throughout the day, keep that gently cleansing going all day long. Drink plenty in the morning, during the body's natural cleansing cycle.
- o *Calli* can be drunk alone or combined with other Sunrider foods for greater benefit. *NuPlus* can be added for a complete meal and even Quinary added to *Calli* and a drop or two of *SunnyDew* is wonderful for a power meal!
- o ***Calli Night***, similar to *Calli*, especially nourishes the nervous system & brain that regenerate at night. Wake up refreshed. 1 bag to 1-2 cups in the evening. Can be drunk during times of needed concentration (study etc.) Doesn't make you sleepy.
- o **Save your *Calli* bags** (let dry): use in pets food – very beneficial to animals; used externally as a poultice to draw out poisons (rewet); to water your plants (resoak a few minutes in your water)

What a great alternative! The more you drink, the greater you feel!

Calli is just the beginning!

The body responds with Increased: energy, emotional stability, mental clarity, alkaline pH, healthy cell regeneration, letting go of the “fluff”, blood and arterial cleansing, circulation, strengthening of the eliminating organs, etc. etc.

SunSmile Herbal Dental Care

Have you seen the warning on your favorite toothpaste?

“We don’t want our children swallowing toothpaste that isn’t safe! That’s one reason we’ve switched brands to Sunrider’s exclusive, safe, economical and very effective SunSmile products for all our dental needs.”

SunSmile Herbal ToothPaste

Canker Sores?

Check Your Toothpaste!! 64% fewer sores with SLS free toothpaste. (Sodium Laurel Sulfate) SLS is a commonly used detergent in most toothpastes that apparently destroys the protective substance lining the tissues of the mouth.

Fluoride Warning! It...

- Removes the enamel on the teeth
- Accumulates and stores in the body
- Increases the risk of bone cancer
- Decreases bone mass and strength, increasing risk of hip fractures
- Increases browning of the teeth
- Increases risk of women's infertility
- Inhibits streptococcus mutans, a major cavity causing bacteria in mouth—
- Is a very toxic poison

(Journal of the American Medical Association, Sept. 18, 1943)

What else discourages tooth decay?

A solid maintenance program obviously is very important, but, the **health of our immune system also determines how many cavities we get** and, if the immune system is weak, it will open the door for disease in the mouth as well as in the rest of the body.

“In the past, I have been prone to gingivitis, plaque build-up, stained teeth, and gums that bleed from dental cleaning. I now use all 3 of the SS products on my toothbrush twice a day.

Both my dentist and hygienist are amazed at the improvement in the health of my teeth and gums. They switched me from check-ups every 4 months to every 5, then every 6 months. I'm saving money on dental bills.

The dentist has ranked me in the top 1% of his patients for dental hygiene.

These products are so concentrated that I have used less than 2 tubes of any of them in a year to get these phenomenal results.”

SunnyDew....The Healthy Sweet

- Good Bye Sugar Blues!
- 300xs sweeter than sugar
- Zero Calories
- Whole Food Herbs

SunnyDew is....
concentrated & extracted

- Stevia
- Chrysanthemum

**Dr Tei-Fu Chen calls Stevia a
“master herb.”**

Extracted from **stevia rebaudiana leaves**, SunnyDew contains no calories and is *250-300 times* sweeter than processed sugar. Stevia has been used by South Americans and Asians for centuries as a sweetener and as a dietary supplement.

Dr. Chen led the way for the FDA to approve the use of and import Stevia in the US and many other companies are now marketing Stevia products.

Sunrider’s SunnyDew is very different from most other Stevia’s on the market.

Because of its special extraction and concentration process to enhance its benefits. **You can taste the difference**—a unique, delicious flavor with no aftertaste. Most other brands are only 50-200x sweeter than sugar, while SunnyDew is 250-300 times sweeter than sugar, thus **you need less and have greater benefits**.

SunnyDew is very concentrated. It takes 2500 gallons of herbal liquid to make 20 gallons of **SunnyDew**, by far, the most concentrated and best tasting.

Stevia...

Summarizing the many benefits:

- Helps improve *digestion*.
- Nourishes the pancreas which is responsible for *blood sugar* regulation.
- Nourishes the systems which regulate *blood pressure* in the body
- Helps *burn glucose* for fat loss
- More even *energy flow*
- Improved *thinking capacity*
- Faster healing of *ulcers or lesions*
- *Digestion and gastrointestinal* functions
- Increases ability to fight *fatigue*
- Promotes more restful *sleep*
- Helps prevent *tooth decay*
- *Anti-fungal, anti-bacterial, antiseptic and anti-viral* (warts and fungus, etc.)
- So it is helpful in *skin repair*
- Helps kill *Candida*, which is *unfriendly yeast* in the digestive system, responsible for an array of illnesses

External Use: on *cuts, scratches, and any skin disorder, helps prevent scarring.*

Chrysanthemum flower is very *calming and anti-inflammatory.*

Now just imagine if **Stevia** only did one of these things. It would be wonderful to use, but it does all of these things; hence it is called the **“master herb.”**

Artificial sweeteners we consume today tend to confuse the pancreas, thus creating a state of imbalance. Proper levels of sugar in the blood are important for mental clarity, energy, muscle recovery, and proper metabolization of fats.

SunnyDew is very nourishing, balancing and healing – a grand, healthful alternative to sugar and artificial chemical sweeteners

Stevia vs. Sugar

Stevia is in every way opposite of sugar:

- ☒ Sugar feeds Candida (Stevia kills it.)
- ☒ Sugar promotes tooth decay (Stevia prevents it.)
- ☒ Sugar causes the blood pressure and blood sugar to go out of balance (Stevia nourishes them back into balance.)
- ☒ Sugar is extremely acidic (Stevia is alkaline.)
- ☒ Stevia is the exact opposite of white sugar and yet Stevia is sweet, and, depending on how it's formulated, is from 50-200 times sweeter than sugar. SunnyDew is 300x sweeter than sugar.
- ☒ Sugar substitutes are generally extremely toxic (Aspartame is the main ingredient in NutraSweet and Equal).

Heat and cold do not affect the beneficial effects of *SunnyDew* so it's great for cooking, canning and baking, however, using it in breads will kill the yeast in the dough.

2 Choices: *Sunectar* is the darker version and complements stronger flavors and *SunnyDew* is great for fruit mixtures and beverages.

How much: For beverages, just add however many drops you desire per cup of *Calli*, *NuPlus* or anything you want to sweeten and drink regularly—to your good health! *SunnyDew* is even delicious in a glass of water with a slice of lemon! Enjoy!

Ingredients: Stevia, Chrysanthemum
