

Calli...Super Gourmet Beverage ***Not an ordinary Tea!***

***Enjoy the benefits of Green Tea
without the negatives!***

Many Benefits of Calli:

- o Mental Clarity, Calm Energy, Sound Sleep, Increased Health & Vitality
- o A great alternative for caffeine-filled drinks, such as colas, teas, and coffee that steal your true energy, your health and your dollars
- o Greater benefits than Green Tea and Coffee without the negatives of caffeine and tannic acids
- o No caffeine withdrawals switching to *Calli*

Calli is a delicious Whole Food beverage

- o *Calli* is not just a tea, but a *whole food* beverage concentrated from several pounds of 4 exotic herbs down to one pound of herbal nectar. This herbal nectar is then spray dried onto Camellia carrier leaves (Green Tea made from Camellia) giving us the benefits without the negatives.
- o Research shows Green Tea benefits: good prevention for cancer (may help expedite it out of the body), excellent for heart challenges, most powerful source of antioxidants found, but unlike Green and Black Tea, *Calli* has no caffeine effect.
- o Based upon 5000 years of research and wisdom in proper combining, rather than decaffeinating (removing part of the plant), Dr. Chen *adds* other herbs milligram by milligram to decrease the tannic acid and caffeine effects while increasing the antioxidants. This time-taking procedure ensures that *Calli* has very ***little or no caffeine effect. This is one of Sunrider's amazing proprietary secrets.***

Calli is increases the benefits of your water

- o *Calli* is acidic, but the effect in the body (like lemons) is alkalizing. In an alkaline environment, impurities are less likely to be absorbed or retained. (Note: Coffee and black tea (by itself) are both "acidic" but do not alkalize the body.)

Calli enhances the removal of toxins, wastes, & digestion's by-products

- o Because of the whole plant nutrients, flavonoids, catechins, & high source of antioxidants, this ancient formula nourishes the cleansing organs: skin, lungs, kidneys, colon, and liver increasing their ability to naturally, gently, cleanse the blood, cells and tissue resulting in the many benefits of *Calli* vs. the stress and challenges of a cleanse or the stimulation of caffeine.

Through optimal nourishment & alkaline pH, body is enabled to cleanse itself of:
