

SunSmile Herbal Dental Care

Warning! Call The Poison Center!

Safety:

Have you seen the warning on your favorite toothpaste?

“We don’t want our children swallowing toothpaste that isn’t safe! That’s one reason we’ve switched brands to Sunrider’s exclusive, safe, economical and very effective SunSmile products for all our dental needs.”

SunSmile Herbal ToothPaste

Dr. Chen spent much time researching ingredients and has provided a solution by making a very extra ordinary product.

Benefits:

- No toxic industrial fluoride, sugars, saccharin, SLS
- Four times more concentrated than others
- Cost effective--only need pearl-size drop
- Cleans with enzymes
- Deliciously fresh!

Ingredients:

- *Neem Tree Extract* helps prevent bacterial buildup, tartar, plaque, & poor quality gums
- *Chlorophyll* - a natural deodorizer
- *Enzymes* - help digest protein and food particles between teeth not reached by brushing. *Tip: leave toothpaste in mouth a while to allow more time for enzymes to work.*
- *Bicarbonate of Soda* -- baking soda-cleans and polishes the teeth
- *Herbs* also found in Calli beverage protect teeth from bacteria and plaque buildup.
- *Natural clove oil, cassia seed extract, eucalyptus oil, peppermint oil and licorice extract* give great taste.

Canker Sores?

Check Your Toothpaste!! 64% fewer sores with SLS free toothpaste. (Sodium Laurel Sulfate) SLS is a commonly used detergent in most toothpastes that apparently destroys the protective substance lining the tissues of the mouth.

Fluoride Warning! It...

- Removes the enamel on the teeth
- Accumulates and stores in the body
- Increases the risk of bone cancer
- Decreases bone mass and strength, increasing risk of hip fractures
- Increases browning of the teeth
- Increases risk of women's infertility
- Inhibits streptococcus mutans, a major cavity causing bacteria in mouth—
- Is a very toxic poison

(Journal of the American Medical Association, Sept. 18, 1943)

What else discourages tooth decay?

A solid maintenance program obviously is very important, but, the **health of our immune system also determines how many cavities we get** and, if the immune system is weak, it will open the door for disease in the mouth as well as in the rest of the body.

Refresher SunSmile Drops

***Replace Your Mouth Wash
with a few Refresher Drops in
1/4 cup water and stop bacteria
from growing for up to 4 hrs!***

Dr. Chen says “Eat Refresher Drops at bedtime to wake up with sweet breath.”

Benefits:

- Alcohol free. Leading cause of brain damage in young children is accidentally consuming alcohol based mouthwashes.
- Increasing effectiveness of Whitening Gel in stain removal.
- Bacterial control maximized with each brushing when apply one drop onto your brush.. Will cause mouth to bubble when bacteria present (like the Fruit and Veggie Rinse.
- Makes us more “kissable” with a fresh, pleasant breath.
- Excellent gargle for sore throats.
- Great disinfectant for wounds or cuts

Ingredients: *clove oil, peroxide, neem extract and grape extract,*

SunSmile Tabs

- Refreshing, chewable tablets. When you can't brush or just want a burst of mouth freshness. **On the Go!**
- Effective ingredients as a disinfectant, antiseptic, anti-viral, anti-fungal, anti-bacterial, and anti-parasitic effects.
- Powerful healing and soothing with extra antioxidants like citrus bio-flavonoids, selenium, & Vitamin E & C.
- Beneficial for canker sores, gingivitis, and halitosis – even upset stomach! **No more Tums!**

Sunsmile Whitening Gel

- 100% non-abrasive
- Maximum strength peroxide and extra enzymes for whiter and cleaner teeth
- Daily: Use a drop on your brush with toothpaste.
- Weekly: Apply directly to the teeth or with the mouthpiece to keep the gel against the teeth. This oxygenation process turns to water after 20-25 minutes. Rinse with *Refresher Drops in 6 oz water.*

Experience by Diane Minch, Des Plaines, IL

“In the past, I have been prone to gingivitis, plaque build-up, stained teeth, and gums that bleed from dental cleaning. I now use all 3 of the SS products on my toothbrush twice a day.

Both my dentist and hygienist are amazed at the improvement in the health of my teeth and gums. They switched me from check-ups every 4 months to every 5, then every 6 months. I'm saving money on dental bills.

The dentist has ranked me in the top 1% of his patients for dental hygiene.

These products are so concentrated that I have used less than 2 tubes of any of them in a year to get these phenomenal results.”

***SunSmile Herbal
Dental Products!
Safe! Economical! Effective!***
