

ElectroSport—“Gatorade” (Electrolyte) Replacement...“Mineral Toddy” in a Clear Form!

. ***ElectroSport*** is a complete integration of 10 electrolytes carefully formulated to create water balance inside and outside the cell walls, while aiding in the absorption and utilization of nutrients. **The minerals (electrolytes) in *ElectroSport* nourish and help restore our electrical system.**

Electrolytes and minerals are critical to good health and effective nutrition at the cellular level. Electrolytes act as a catalyst in the metabolic process; and nutrients actually bind with electrolytes to be carried into and utilized within the cells. Therefore, effective electrolytes help deliver nutrition within the cells (like a truck). You can see for yourself the immediate effect of ***ElectroSport*** when added to one of Sunrider’s herb food beverages. As you pour the clear ***ElectroSport*** liquid into the beverage, the beverage will darken as the ***ElectroSport*** binds with the food particles contained in Sunrider herb foods. This binding process helps the body to better utilize the components of the ***ElectroSport***. Electrolytes play a role in fighting naturally-occurring toxins in the body. We lose electrolytes when we are under stress, when we sweat, when we are in high altitude; it depletes the body and upsets the water balance inside and outside the cell walls.

Especially formulated for the physically active, and during periods of high temperatures when bodily fluids and electrolytes may be depleted through perspiration, this liquid herb concentrate is a vital component of any fitness, athletic or nutritional program. Because it is an ionized solution containing no sugar, sweeteners, preservatives or artificial ingredients, ***ElectroSport*** acts quickly in the body and electrolytes can function unimpaired. Combined with ***Fortune Delight*** (1 vial ***ElectroSport*** to 1-2 quarts ***Fortune Delight*** (or ***Calli***) along with ***Sunrise*** or ***VitaFruit*** and ***SunnyDew*** makes a superior sport drink. Or just mix ***ElectroSport*** with 1-2 quarts of water or ***Fortune Delight*** or ***VitaFruit*** (with ***SunnyDew*** if desired.) ***Lemon Fortune Delight*** is good super-charged electrolyte and mineral drink for hydration; this mixture is very healing when the body is under stress of any kind. While the other herbal food liquid concentrates can be consumed directly from their vials, 1 vial of ***ElectroSport*** should be mixed with 2 quarts of any liquid, preferable ***Fortune Delight*** or ***Calli***. One can use ***ElectroSport*** all through the day, in any number of combinations. If you prefer to mix one glass of ***Fortune Delight*** or ***Calli*** at a time, simply add 1/3 or 1/4 vial of ***ElectroSport*** to the single glass. One important caution: Be sure to use the entire vial within 24 hours. As this formula is a food, it spoils within that time if not used.

The minerals (electrolytes) in *ElectroSport* nourish and help restore our electrical system.

Special Note: Applied topically, ***ElectroSport*** is very healing to any wound, cut or burn. Even helps the body heal chronic hemorrhoids or anal fissures. Mix 1/4 vial in 2 tablespoons water and a few drops of ***SunnyDew*** and apply with cotton ball.

Ingredients: Water, Chloride, Calcium, Potassium, Sodium, Magnesium, Zinc, Iron, Manganese, Chromium, Selenium, Lemon Oil.
