

***SunBar— Nourish and increase energy! Meal replacement!
Move out toxins!***

Ever have a time when you'd like to have a **ready-to-eat, completely balanced and delicious meal in a bar**? Heretofore, the usual choices, upon checking the labels, have been high in fat, sodium, excito-toxins, and/or sugars (sugar and corn sweeteners). The **SunBar** is only full of wholesome ingredients—whole soy protein, **Regular NuPlus**, herbs, nuts, grains, FOS fiber, honey, and freeze-dried fruits. The **SunBar** contains **3 grams of plant fiber** from soluble (digestible) life-giving Fructooligosaccharide, (FOS) extract from Chicory Root, and bamboo fiber. FOS helps in digestion, absorbs fats, stimulates growth of the good bacteria, such as Acidophilus, Bifidus, and Faecium, helps reduce Candida Albicans, minimizes bloating, reduces LDL or bad cholesterol (without negatively affecting the HDL or good cholesterol) and triglycerides, helps suppress the appetite, and helps mediate the assimilation of carbohydrates over a long period of time (helping blood sugar levels). FOS makes an intestinal environment to support the “good guys” and eliminate the “bad guys”! It takes about 15 days consistently eating FOS to start making a significant difference in the colon. If one should notice any gas, increase fluids, eat smaller amounts of the bar at a time, and know that the FOS is working to clean and restore a healthy intestinal tract; your body will normalize soon!

The food herbs in **SunBar** are held together with thick, extra-concentrated **Sunrise**, noted for energy and physical strength (see **Sunrise**). Note: Dr. Tei Fu Chen says that **Sunrise** is for longevity and youthfulness. The herbs in **Sunrise** and **SunBars**, along with the food herbs in **NuPlus**, are great to help children grow healthy and strong.

The **SunBar** makes a great addition to breakfast, lunch, or dinner! One bar is an excellent choice for a snack. The **SunBar** has only 120 calories, which makes it perfect for weight-management. It fills you up, but not out! **SunBars** also contains **6 gram of protein** (vegetable source,) macadamia nuts (**Chocolate SunBar**) and almonds.

The **SunBar** is ready-to-go, fills our nutritional needs, and fits our busy lifestyles! For a complete fat-loss program, add **VitaShake**, **Calli**, **Fortune Delight**, **SunnyDew** and **MetaShaper** to your regimen! Two **SunBars** or 1 **SunBar** plus a **VitaShake** equal a great meal replacement! The bars are so delicious we want to eat them all day long! **Fortune Delight** is the perfect drink complement.
