

VitaFruit—Concentrated Chinese Fruit Extracts...Repair Juice!

Whole Food Anti-Oxidants, Bioflavonoids, Carotenoids, Vitamins and Minerals...

VitaFruit liquid concentrate is revolutionary and power-packed! Because the vitamins in this drink are from a **food source** AND the Vitamin C remains stable! **VitaFruit** is not a synthesized, chemical product created and manufactured by man. Dr. Chen, in his brilliance, uses his technological expertise to extract and concentrate herbal fruit juice, while retaining its “life force” and its rich content of vitamins, minerals, and amino acids. **VitaFruit** is the live “nectar” or concentrated juice from many different exotic herbs and herb fruits, many picked in the wilds of western China. **VitaFruit** is naturally rich in whole-food antioxidants, Vitamins A, E, a *stable* C, hundreds of bioflavonoids, B-complex, minerals, 2000-3000 carotenoids, amino acids, and *live fruit enzymes*. (Antioxidants, natural tissue protectors, are known to slow down the aging process, assist the body in healing, and stop the body from progressing to debilitating diseases.) Unlike vitamin pills, which provide only known antioxidants, **VitaFruit** provides known and hundreds of unknown antioxidant nutrients in balanced amounts. Its greatest work is doing tissue-repair to the damage done to the cells by free radicals. Thus, **VitaFruit** is very anti-aging! **VitaFruit** also increases the army of white blood cells in your blood stream, making it a great immune system food. Dr. Chen’s research and development team states that **VitaFruit** contains thousands of phyto-nutrients not yet discovered! It is formulated without added enzymes, preservatives, artificial sweeteners, or chemical isolates. As a complement to a healthy diet, **VitaFruit** greatly benefits the skin. When used regularly, it may help restore luster, radiance and softness to prematurely aging skin for a more youthful and healthy appearance. By supplying so many nutrients needed by the body, we also call **VitaFruit** “joy juice”!

The purpose of chewing our food is to liberate as many nutrients as possible. The more we liberate, the more nutrients there are available for the body to assimilate in order to improve mental, emotional, and physical health. *Dr. Chen’s processing and extraction methods have already ‘chewed’ the herbs and liberated the nutrients for us!* **VitaFruit** is an excellent source of antioxidants and it is from raw whole foods! Dr. Chen determined, after months of testing, that the only way to keep the incredible amounts of **VitaFruit** micro-nutrients stable at full value, without the addition of isolates or preservatives, was by preserving this very concentrated product in a honey base.

As a juice **VitaFruit** makes an excellent replacement for canned and frozen juices, bottled drinks and sodas. Dissolve this delicious liquid fruit concentrate in cold water or add to *cold Calli* or **Fortune Delight** with some **SunnyDew** for extra “goodness”! You may also put **VitaFruit** in any cold beverage or smoothie of your choice. Adds a tasty new flavor to fruit salads, fruit smoothies, or as a fruit topping. **VitaFruit** makes an ideal juice for drinking **NuPlus**. Never heat. This destroys the live bioflavonoids, Vitamin C, and antioxidants. The 11 fluid ounce bottle is by far the most economical and very handy—just a “squirt” adds powerful nutrition and a delicious taste! Since **VitaFruit** supplies so many nutrients for healing, we consider **VitaFruit** as part of our Sunrider Basics.

Legend has it that Genghis Khan discovered new fruits when he was conquering Asia. When he was in Mongolia, he fed his soldiers the combination of these rare fruits and noticed they had more energy, were able to march longer and cope with the heat and humidity. Dr. Chen has reintroduced these fruits to the world and named the product **VitaFruit**.

VitaFruit is very healing to the tissue; the Luo Han Guo herb has been known to help with the throat, voice and speaking. Enjoy **VitaFruit** on your skin! **VitaFruit** is part of **Replenish**, **Rebuild**, and **Supreme Emulsion!**

Ingredients: Buckthorn Fruit, Luo Han Guo, Lemon Oil, Wintermelon Seed, Date, Orange Peel, Bitter Orange and honey as a natural preservative.
