

Black Shirt Studios

Black Shirt Studios feels the best way to market our artwork is to simply identify public locations where the photography will be displayed and available for viewing by the general public.

What:

Our Arts in the Office™ installation would include a canvas photograph which would be approximately 16"x20" to 20"x24" in size, depending on the wall it will be installed on. There would also be an accompanying artist's bio approximately 8.5"x5.5" in size with a QR code to our online gallery. Both of these items would be displayed using 3M style, wall friendly, removable adhesive mounts. The photograph will have a value of \$230 to \$350. You can visit our online gallery and choose to have any of the photographs on display with the exception of the limited editions. The print will be a canvas print with a full side wrap.

The Process:

We require the photograph to be on display for a period of three months. After that time, the photograph is yours and you could continue to display it in the office without the artist's bio or you could bring it home for personal use.

In Review:

If you like having our artwork on display in your office and we feel the display has generated traffic to our online gallery then we could discuss another Arts in the Office™ installation.
