

# Approved Water Supplies

## Regulated Hose Supply

Regulated Hose Supply with 20' Hose	BA-MS-320-20
Regulated Hose Supply with 5' Hose	BA-MS-320-05

The Regulated Hose Supply, our number one seller, has no bulky components to mount and no valves to open or close. No tools required — just screw the hose onto a standard garden hose bibb. For use with batteries equipped with Millennium Evo or Pro-Fill systems. (SPW system must have BA-QDV-505 quick coupler.)

## Portable Watering Cart

The AC & DC portable watering carts are ruggedly constructed of lightweight, yet strong polyethelene plastic, and features a large 22 gallon holding capacity. The new cart automatically shuts down when the battery becomes low on charge, and features LED message lights to alert you to the state of the cart's battery. All components are DI water compatible.

AC / DC Portable Watering Cart	<b>BA-MS-110</b>

## Deionizer

Maximizes battery life by removing ions and heavy metals that are present in tap water. The separate bed deionizer uses an ion exchange cartridge to filter the water before it enters the battery. The low pressure bypass ensures that the deionizer will provide enough pressure and flow to operate your SPW system, even if your cartridge becomes plugged.

Deionizer, 100-115 VAC Light	<b>BA-MS-341</b>
Deionizer, 220-240 VAC Light	<b>BA-MS-342</b>
Deionizer, Battery Operated, w/o Bypass	<b>BA-MS-340</b>
Deionizer, Replacement Cartridge	<b>BA-221</b>

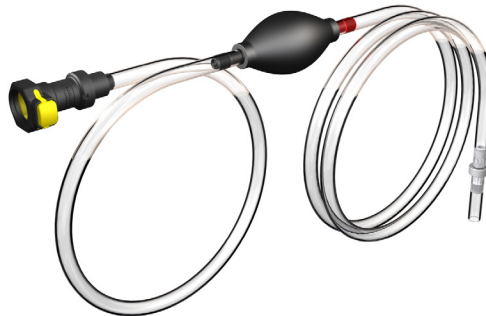

## Portable Water Supply

BA-MS-606, 100-120 VAC Powered

## Hand Pump

BA-MS-630

## Gravity Tank

BA-MS-700, w/ shelf & auto refill  
 BA-MS-702, w/ shelf & no auto refill  
 BA-MS-703, no self & no auto refill
